

Fair and somewhat warmer tonight; Wednesday fair; variable winds.

ESTABLISHED 1878

LOWELL MASS. TUESDAY SEPTEMBER 12 1916

PRICE ONE CENT

REPUBLICAN VICTORY IN MAINE ELECTION

CARL E. MILLIKEN, R.
Elected Governor

FREDERICK HALE, R.
Elected U. S. Senator

**Elect Governor, Two U. S. Senators
and Four Congressmen—Milliken's Plurality 13,607**

THE VOTE OF MAINE

The revised vote for governor, United States senators and congressmen follows:

For Governor

MILLIKEN, R. 80,902
CURTIS, D. 67,395

For United States Senators

HALE, R. 78,854
FERNALD, R. 80,191
JOHNSON, D. 68,969
SILLS, D. 67,516

For Congressman—First District

GOODALL, R. 20,350
STEVENS, D. 16,799

For Congressman—Second District

WHITE, R. 19,157
McGILLICUDDY, D. 18,770

For Congressman—Third District

PETERS, R. 21,820
EUNKER, D. 18,277

For Congressman—Fourth District

HERSEY, R. 16,556
PIERCE, D. 12,337

The Vote for Governor in 1914

HAINES, R. 19,169
CURTIS, D. 22,057
GARDNER, P. 5,509

PORTLAND, Me., Sept. 12.—The thoroughness of the republican victory at the polls yesterday was emphasized as the returns from isolated towns and plantations struggled in today.

Milliken's Plurality 13,607

Revised figures place the plurality of Governor-elect Carl E. Milliken over Governor Oakley C. Curtis at 13,607. Returns from the border show that

the members of the Second Maine Infantry cast a total vote of 470, of which Milliken received 300.

The pluralities for the republicans who will send a solid delegation to congress were practically unchanged from the figures of last night, as were the pluralities won by Frederick Hale and ex-Gov. Bert M. Fernald, who were elected to the United States senate.

G. O. P. Control Both Houses

The republicans, who have held a majority in the state senate will now control both houses by a good working majority. A study of the returns for the legislature show that Franklin county completely reversed its representation in both houses, returning all republicans to replace the sol-

N. Y. CAR CRASHED INTO JITNEYS—TWO KILLED

**Serious Accident in Trolley Strike—
"Green" Motorman Lost Control of
Car—12 Severely Injured—Night of
Rioting—Strikebreakers Fired Upon**

NEW YORK, Sept. 12.—The first serious accident of the street railway strike in this city, took place early today when a trolley car of the Union Railway Co., in the Bronx, operated by a "green" motorman, got beyond control as it started down a steep grade and, jumping the track at a curve, crashed into two jitney buses, killing two persons and severely injuring 13 others. Four of the injured may die. The car crew was placed under arrest, pending an investigation.

Night of Rioting

After a night of intermittent rioting motormen on the Sixth and Ninth avenue elevated roads reported to the police that they had been fired upon by strikers from roof tops. Third avenue elevated trains were reported to be bombarded with bricks and stones hurled from nearby buildings. One passenger, a woman, was struck on the head by a missile and seriously injured. Five arrests were made.

Concession on Subway and L. Roads

The congestion on the subway and

elevated roads today was even more pronounced than yesterday, due to the fact that there was little or no service on the surface lines of Manhattan and the Bronx. Not a car wheel moved in Yonkers, Mount Vernon and New Rochelle. Union leaders claimed that hundreds of subway and elevated employees had joined the union within the last 24 hours. Traction officials maintained that all of their employees who signed the "master and servant" contract remained at their posts.

No General Walk-out

Hugh Frayne, state organizer of the American Federation of Labor insisted today that a general walkout by all labor unions was not being considered. He said the present plans of the leaders contemplated the calling out of the unions closely allied to the striking railroad men.

Vote on Sympathetic Strike

John T. Riley, chairman of the International Longshoremen's union, declared that the members of his or-

ganization numbering between 5000 and 10,000, are voting on the advisability of declaring a sympathy strike. The decision will be announced later in the day.

Crews of Car Sat Upon

Violence continued as the day went on. Strikers and sympathizers halted surface cars and sat upon the crews of strikebreakers when the latter refused to desert their posts.

Strikebreakers Appeal to Officials

Nearly 100 strikebreakers, most of them from Chicago and Boston appealed to Mayor Mitchell and the public service commission to assist them in achieving their "freedom." They claimed that none of the promises made when they were engaged had been kept; that they were virtually prisoners in car barns and that wages due them were not forthcoming.

Promised Police Protection

The mayor promised them police protection in their efforts to collect wages.

their due from an apportionment recently made by the national government.

After reviewing the decision of the supreme court that the reapportionment of Suffolk county into representative districts was a nullity, Gov. McCall said: "It would seem that there were no representative districts in the county of Suffolk at the time fixed for filing nomination papers by candidates and that in that absence of further legislation, that county might be incapable of choosing representatives to the general court at the approaching election. I recommend that provision be made for the nomination of candidates for the house in Suffolk county, at the regular primary, and, to the end, that the county may not be disfranchised, that special primaries be provided for in the event that the latest reapportionment shall be set aside by the court."

SESSION IN CONNECTICUT

HARTFORD, Conn., Sept. 12.—The legislature met in special session today at the call of Gov. Holcomb to take necessary steps to permit men on duty with the National Guard at the Mexican border to vote at the elections in November.

WANTED AT ONCE

At Macartney's Apparel Shop, good smart boy. No other need apply.

ENEMY OF GERMS

Disease germs are ever present in dirt and are tracked into the home of the most careful housewife.

Here they find a ready refuge in rugs and carpets and lurk a hidden menace to the health of every member of the family.

Sweeping only serves to distribute them about the house.

The Electric Vacuum Cleaner safely shuts them up in a bag and they can be disposed of by emptying into the furnace or boiler.

Clean the Sanitary Way.

NEW PASTOR FOR KIRK STREET CHURCH

Rev. William F. English, Jr., pastor of the First Congregational church of Saco, Me., has resigned his pastorate to accept a call from the Kirk Street Congregational church in this city. He will assume his duties in this city on Sept. 24. Rev. George M. Ward, a Lowell young man who has been acting pastor, will leave for the south upon the arrival of Rev. Mr. English.

Dance, tonight, Highland hall.

PRES. WILSON REMAINS AT NEW LONDON, CONN.

HIS SISTER IS CRITICALLY ILL—NO COMMENT ON ELECTION IN MAINE

NEW LONDON, Conn., Sept. 12.—President Wilson today remained near his sister, Mrs. A. E. Howe, who is critically ill here. His plans depended largely on the outcome of her sickness. Early this morning it was said that her condition was practically unchanged.

The first news of the apparent republican victory in Maine was received by the president from the newspapers this morning, as members of his party declined to disturb him last night. He would make no comment this morning. Arrangements were made for the president to meet the members of the Mexican-American joint commission on board the naval yacht Mayflower, during the day.

The Mayflower, with Mr. Wilson on board, was anchored off Fort Trumbull near here, but launches carried hourly reports to the president of Mrs. Howe's condition.

During the forenoon the physicians attending the president's sister issued the following bulletin:

"Mrs. Howe had a comfortable night. Her condition remains about the same." This news was immediately forwarded to the president on the Mayflower. Soon afterwards the president and Mrs. Wilson came ashore and went to Mrs. Howe's hotel to see her.

Quality

The best products of the watchmakers, the silversmiths, the diamond cutters and the goldsmiths are represented at this store in assortments that are practically unlimited. Prices, too, are as low as in the average store because we are out of the high rent district.

JOS. HART KILLED BY A TRAIN LAST NIGHT

An employee of the Boston & Maine car shops at North Billerica, thought to be Joseph Hart, aged 30 years and residing at 124 Spring street, Cambridge, was struck and instantly killed by an express train near the chemical works in Billerica about 5:30 o'clock last night. There were no witnesses to the accident. Charles Lyons of North Billerica discovering the body shortly after the 5 o'clock express from Boston passed. Dr. Forhan was summoned and he in turn notified Medical Examiner Neigel. The body was later taken to a funeral home of James F. O'Donnell & Sons in this city.

Dance, tonight, Highland hall.

SPECIAL SESSION OF THE LEGISLATURE TODAY

THREE SPECIFIC MATTERS OF CONSIDERABLE IMPORTANCE TO BE SETTLED

BOSTON, Sept. 12.—Three specific matters are to be settled by the legislature called in special session today by Gov. McCall. The most imperative of these, in view of the near approach of the state primaries and election, is the adoption of a new legislative apportionment for Suffolk county to replace that arranged by a legislative commission and recently declared by the supreme court to be invalid. A new apportionment drawn up by the commission was ready for the consideration of the legislators.

The other measures to be considered are the devising of a method whereby Massachusetts National Guardsmen on the border may vote in the November election and the providing of aid for dependents of the guardsmen.

In his address to the joint convention at the opening of the session, Gov. McCall recommended the passage of a law under which the votes of the legal voters among the 7000 National Guardsmen from Massachusetts on the Mexican border would be taken and counted for presidential electors, United States senator and representatives in congress. "I recommend," he continued, "a suitable increase in the compensation of the soldiers with a further provision for those dependent upon them and that due authorization be given to cities and towns to raise money by taxation or otherwise and to expend the same for such purpose. I recommend the appointment of an agent to assist dependent families to secure what is

MUNICIPAL COUNCIL HELD SESSION TODAY

**Harvey B. Greene Objects to Bill
Over 70 Years Old — Protest
Against Labor Day Prize**

Chiefly routine business was transacted at the meeting of the municipal council held this morning. The meeting was presided over by Mayor O'Donnell and all members were present with the exception of Commissioner Putnam, who is enjoying a week's vacation. Harvey B. Greene renounced against sewer assessment bill 60 to 79 years old and a representative of the Machinists objected to Labor day award for largest number of men. Charles Sullivan was given a hearing on his petition to maintain a garage at 170 Wilder street. There was no remonstrant and the petition was referred.

The U. S. Cartridge Co. was given a

hearing on its petition for permission to keep, store and manufacture explosives known as primers in its Lawrence street plant. Mrs. Ita Margaret Hutchinson O'Creley appeared as a remonstrant, but when she was informed that the petition was for the Lawrence street plant, she withdrew her objections. Later, however, she was given an opportunity to remonstrate, for a similar petition for the South Lowell plant. Mrs. O'Creley objected this time on the grounds that the South Lowell explosion some 13 years ago had been the cause of a large deprecation in the property in the district, and inasmuch as she

VARNUM AVENUE TRACKS

**Bay State Company Ordered to
Extend Their Line as Far as
Totman Street**

Special to The Sun
STATE HOUSE, Boston, Sept. 12.—An order will be issued by the public service commission this afternoon directing the Bay State Street railway to extend its tracks along Varnum avenue as far as Totman street. This

action is taken as a result of the petitions filed a year ago by Representatives Achin and Jewett, who asked that the extension be made to Fowler road. The company declined, however, and ordered the company to extend its tracks the whole length of the avenue. HOYT.

CRIMINAL COURT SESSION

**Assault Case of Japs vs. Wilson
Heard by Judge Stevens—
Baudry Sentenced**

Several different versions of the struggle between Thomas J. Wilson, a bakery driver, and Michael Japs, variety storekeeper, which occurred in the latter's store on Penn avenue and during which Japs lost his left eye were related to Judge Stevens in the criminal session of superior court which was resumed here at 10 o'clock this forenoon.

The case in which Wilson was charged with assaulting Japs with a knife, was not tried out as a satisfactory settlement was expected by both parties. Judge Stevens preferred to hear the testimony of witnesses, however, before making final disposition of the case and two women were called to the stand besides the

BIG DRIVE OF ALLIES

**General Offensive Movement on
Macedonian Front—Gains for
French and British**

Reports from the Macedonian front today point more strongly than ever to the probability that the present thrust of the entente forces may be the long-expected general offensive movement from this base.

From the armies of five nations assembled on this front, reported from some sources to number some 600,000 men, the British and French are known to be exerting heavy pressure, the British along the Struma front northeast of Salonika and the French northward along the Vardar on the Serbian border.

French Co-operate With British

French troops also are co-operating with the British in the more easterly operation, where like their allies, they have crossed the Struma, capturing the village of Velnich on the easternly bank within 10 miles of Demir-Lazar. The British have seized additional trenches across the river to the southeast and according to a news despatch from Athens, the Bulgarians are in retreat after a 35-hour battle in which they suffered heavy losses.

Bulgarian Advance

In the Rumanian province of Dobruja the advances of the Bulgarians and Germans who are commanded by Field Marshal von Mackensen, is continuing, Berlin declares.

Russian Successes

The Russian campaign in the Carpathians is making further progress, according to Petrograd which reports the capture of Kapul mountain, near the Bukovina border and other heights nearby. Berlin announces the repulse of Russian attacks in this sector.

Austrian Attacks Repulsed

Austrian counter attacks on positions captured on Sunday by the Italians in the Posina sector of the Trentino were repulsed and further progress has been made by the Italians, Rome announces.

Quiet on Somme Front

The heavy attacks made by the Anglo-French forces which netted them important gains along the Somme front

RHODE ISLAND TROOPER DEAD AT EL PASO

PRIVATE FULLER DIED AS RESULT OF BEING KICKED BY A HORSE ON SUNDAY AFTERNOON

EL PASO, Tex., Sept. 12.—Private Stanfield Fuller, 19 years old, member of M Troop of the Rhode Island Squadron of Cavalry, whose home is in the Auburn section of Cranston, R. I., died at the Fort Bliss hospital yesterday morning as the result of being kicked by a horse Sunday afternoon.

At the time the accident occurred Fuller was leading three horses to water. The animal became frightened and reared, and Fuller was thrown over the side of the horse, and he fell between the horse and the ground.

Fuller was the son of Mr. S. A. Fuller of Auburn. He was unmarried and enlisted on Feb. 7, 1916. When M Troop was organized last May, young Fuller was transferred with several others to that troop.

Fuller was a machinist by occupation and was employed at the plant of the General Electric Company. His death is the fourth among New England troops since the National Guard reached the border.

THE MEXICAN-AMERICAN JOINT COMMISSION

MEXICANS CALL ON PRESIDENT WILSON AT NEW LONDON—REGRETS SISTER'S ILLNESS

NEW LONDON, Conn., Sept. 12.—The Mexican members of the Mexican-American joint commission that is studying means for restoring order in Mexico will be given an opportunity today to pay their respects to President Wilson, who came here yesterday because of the illness of his sister, Mrs. A. E. Howe. The call of the commissioners on the president was arranged after they had suggested it in a message of sympathy transmitted by Secretary Lane. In their message the commissioners said that before leaving the United States they hoped to have the opportunity of paying their respects in person to the president. A meeting was to take place on the Mayflower anchored in the river just in front of the hotel where the commission is in session.

Further discussion of the statements made by Commissioner Paul relative to

Stomach Relieved Digestion Aided

MR. CHAS. A. WARNER
"I want to express my thanks for the good Duffy's Pure Malt Whiskey has done me. My attending physician told me I could not live three months and said I had consumption of the stomach. I read your advertisement in the newspaper, bought a bottle, took it, and it has done me so much good I cannot praise Duffy's enough. I have taken it for three months and keep it in the house all the time. I would not be without Duffy's I am 55 years of age." Mr. Chas. A. Warner, Cambridgeport, Vt.

Duffy's PURE MALT WHISKY

Is recommended in tablespoon doses in equal amounts of water or milk before meals and on retiring as an aid to digestion, and assimilation of food.

the state of the railways in Mexico featured the forenoon session of the commission. The information in the possession of the American commissioners confirming in a great part that offered by the Mexicans. It was regarded as probable that today's meeting would be brief because of the visit to the Mayflower.

WASHINGTON, Sept. 12.—Major Gen. Tasker H. Bliss, assistant chief of staff, left here today for New London, Conn., to give the American-Mexican commission the benefit of his knowledge of military affairs along the international boundary and assist them in negotiations for a new form of border protection.

MEAT EXPORTS TREBLED DURING THE WAR

EUROPEAN CONFLICT IS EXACERBATING SERIOUSLY UPON MEAT SUPPLY

NEW YORK, Sept. 12.—The European war is exacerbating seriously upon the meat supply of this country, according to figures made public yesterday by the foreign trade department of the National City Bank. Despite marked decrease in the number of food animals in the United States, exports of meat have trebled since the beginning of the war, and of beef alone exports are greater by tenfold.

The compilation shows that exports of meats of all kinds, which aggregated 455,000,000 pounds in the fiscal year 1914, prior to the war, mounted to 885,000,000 in 1915 and 1,320,000,000 pounds in 1916.

The quantity of fresh beef exported jumped from 8,165,000 pounds in 1914 to 17,000,000 in 1915 and 231,900,000 in 1916.

HYSTERICAL IN COURT

Woman Creates Scene at Dedham When Husband is Sentenced to Prison for Five to Eight Years

BOSTON, Sept. 12.—Mrs. Fred Chaplin of Dedham became hysterical yesterday in the superior court at Dedham, when Judge Raymond imposed a sentence of five to eight years on her husband, Fred Chaplin, charged on her assault with intent to rob John D. Anderson in Stoughton on Feb. 19, 1915.

Chaplin eluded the police for many months, but was recently arrested in Maine. Chester Styren, his companion in the holdup, is now serving a one-year sentence for the crime.

MISS BOUTELLE'S REPORT

Tells of Y.W.C.A. Work in China—Says They Are Under Martial Law at Canton

Miss Harriett L. Boutelle, former general secretary of the local Y.W.C.A., who is now doing work in Canton, China, has sent to this city a copy of her quarterly report, which in part is as follows:

As far as my experience goes, every typical feature of the Y.W.C.A. in America has some counterpart in China, from the board member who does not like finance to the girl who, before she joins the association, asks how many social affairs there are in a month. This second fourth of the year in Canton has been so quiet and so unusual as to seem to be unlike anything one would ever experience in America, but it rounded me forcefully of a time when a certain New England association was quarantined on account of scarlet fever. The scenes—meetings, classes or clubs were allowed. There was a certain strain about it, but for the most part the staff enjoyed a real rest and the whole association bounded forward with renewed vigor after the ban was lifted. Here in Canton this second quarter has been badly cut into, not by scarlet fever, but by the fever of a revolution. For six months or so the city was under martial law, soldiers who frequently robbed any prosperous-looking Chinese were stationed along the Bund and throughout the city shops were kept open but a crack, with iron gates ready to be drawn together at a moment's notice, and within hearing to rush to safety, the very air was tense with the expectancy of what might happen. Naturally the women ventured out during times like these, and the rooms had a deserted appearance. Several board members were out of town, so that not even committee meetings or planning of any sort was possible. The very uncertainty as to where and where fighting might break out evened out the likelihood that the member sought had broken herself and her family to the foreign territory of Macao or Hong Kong. It was an unfortunate state of affairs, though it had its amusing side.

Gradually confidence has been restored and the last part of the quarter has been spent in gathering up the threads. The vessels started out with an attendance of over 40 and have averaged that number ever since. About half of the regular congregations, as well as the Chinese, were plainly shown when all of them failed to appear on the first day preceding Dragon Boat Festival. Several of the Normal school girls came more or less reluctantly, all of them interested in Christianity, but none of them out-and-out Christians.

E. P. WOLCOTT, AUXILIARY

Genl. Needham Acknowledges Receipt of Gifts for Battery C, on the Border

A business meeting of the members of the 14th Central Postal Directory, Battery C, was held yesterday in the major's recreation room at Camp Peshing, El Paso, Tex. The meeting was presided over by Anne M. Bowler and an interesting report of the national convention, which was held at Chicago was given by the major. The post department president, who has returned from the convention, the following letter of appreciation was received from Genl. Needham of Battery C, who is on the Mexican border:

Mrs. A. E. Goodham, Chairman, Gift Department, Worcester, Mass.
My dear Mrs. Goodham: I am glad to hear that the members of the 14th Central Postal Directory, Battery C, are so interested in the welfare of the troops. I am sure that the gifts you have sent will be of great help to them.

I personally saw to it that an even division of the gifts was made. Very truly yours,

Genl. Sumner Needham, Battery C, First Mass. Inf., Camp Peshing, El Paso, Tex.

FOR INFANTILE PARALYSIS

Physician Would Bar Children From Picture Shows Until the Danger is Over

"Should we have a few more cases of infantile paralysis," said a local physician, "it may be necessary to close the picture houses to children. A couple of weeks ago two of the theatres had shows to which children were not admitted, lest they should catch something, I suppose."

"I believe it would be a good thing," continued the doctor, "to bar children from all the picture theatres until such times as infantile paralysis disappears."

"The disease," he said, "seems to be making its way along the eastern states from New York as a centre which may indicate that it has its origin in some miasma arising from the ocean or some deadly germ carried in the air."

"The investigations thus far made by medical authorities do not cast much light upon the origin of the disease and quite as little upon its proper treatment or what will effect a cure. It is a mistake to suppose that it is confined to infants, although young children are most susceptible to its attacks. Very little is known as to whether the disease is contagious or how it is spread. The fact that it is spreading is the condition that must be met with all the reasonable precautionary measures such as isolation, quarantine and symptomatic treatment in order to battle the malady as best we can at every point."

"The disinfection of schools, theatres and churches may come as a step towards fighting the disease should we have any considerable number of cases, but we have not reached that stage as yet and we hope such an extreme step may not be necessary."

"It behooves all residents to keep clean and strong, and to ventilate their homes thoroughly by day and by night."

"The cleanup campaign of the city should be continued. No sanitary precaution should be omitted, for although it is claimed that cleanliness is not a protection against infantile paralysis, the fact remains that nearly all contagious diseases have their origin in filth of some kind."

Lesson of Great Britain will have to be learned in Canada."

OTTAWA, Sept. 12.—The issuing of new casualty lists by the government yesterday brought the news to the Canadian public that the Dominion troops have again figured in a big battle, this time on the Somme front. The lists indicate that the losses will run up to several hundred in a serious engagement which took place last Friday.

SEARCH FOR CHARLES W. COOK, AGED 32, MISSING SINCE AUGUST 12

BOSTON, Sept. 12.—The mysterious disappearance from this city on August 12 of Charles W. Cook, an aged real estate owner, who left a note in which he stated that he would not return, led today to a widespread police search. Cook, who lived at a hotel, is said to have had no relatives here, and no alarm over his absence was expressed until a letter addressed to Dr. Arthur P. Perry, one of the executors of his will, was found yesterday. Cook's desk, Dr. Perry told the police today that Cook had written that he was "about to take the boat for Belfast, Me., never to return," and this, the executor said, led him to fear that Cook had jumped from the steamer.

In former years, Cook had visited Bar Harbor and Southwest Harbor, Me., where he was well known, and the authorities in those places were asked to take up the search.

Cook was described by Dr. Perry as a man who had no close friends, having lived for many years in retirement. He was 32 years of age. According to Dr. Perry, there was apparently no reason why he should have attempted suicide, as he was wealthy and in excellent health.

MASONIC CELEBRATION

Mount Herch Royal Arch Chapter Celebrated Its 90th Anniversary Last Night

The members of Mount Herch Royal Arch Chapter of Masons observed the 90th anniversary of the formation of the chapter in Masonic hall in Merrimack street last night. There were about 300 present and a banquet which was held during the early part of the evening was followed by an interesting program. George E. Corson of Washington, D. C., general high priest, was the principal speaker and addresses were also made by Arthur D. Prince of Lowell, one of the national officers, and others. During the banquet and after-dinner exercises, music was furnished by the Mendelssohn male quartet.

TO THE HOSPITAL

Arthur S. Chandler of 45 Aldrich St., Somerville, Relates How Wife Suffered

The effective methods adopted by the manufacturers of Plant Juice, the new laxative stomach remedy, in the introduction of this remedy, has struck the popular keynote of demonstration. These methods consist chiefly in furnishing the people of this city with convincing proof that Plant Juice will do all that is claimed for it. That they are doing this is shown by the numerous testimonials of local people who have received great benefit from Plant Juice.

Mr. Arthur S. Chandler, who resides at No. 45 Aldrich street, Somerville, and is a well known real estate dealer, having hosts of friends in this city said:

"My wife has been a sufferer from stomach trouble which took the form of indigestion and dyspepsia. Her food fermented in her stomach and caused gas and bloating. She was nervous and restless, could not get any sleep at night and lost 20 pounds in weight. Finally she became so bad that she went to the hospital for treatment. She was so dizzy that she would fall to the floor, had headaches, backache, and suffered the most excruciating pain. She got no relief from the treatment and medicines she had tried, and we were so discouraged we did not know what to do, when a friend told us of Plant Juice, and I got a bottle for her. She has now taken two bottles and it has made a new woman of her; she eats all kinds of food, has no pain,aches or pains, and sleeps well. Plant Juice has certainly been a God-send to my wife and we are glad to recommend it."

The Plant Juice Man is at Dows, The Druggists in Merrimack square, where he is daily meeting the local public and introducing and explaining the merits of this remedy. Free samples given.

DENTISTS ARE ROBBED OF \$600 IN GOLD

MANY HOLYOKE DENTISTS "TOUCHED"—TWO SPRINGFIELD DENTISTS ALSO ROBBED

HOLYOKE, Sept. 12.—The police were kept busy yesterday answering complaints from dentists that their offices had been broken into and \$600 stolen to the total of \$600. In each case the office doors were jammed.

Dr. William J. Horrigan lost about \$200 yesterday and Dr. Frank and John Harrington about \$800 worth and Dr. Patrick Patton, Albert J. Vaughn, James R. O'Donnell, A. R. Laduke and T. E. Tolson from \$90 up. Dr. John

McCarthy, about \$70 worth. Several other dentists lost small quantities.

STEAL \$227 IN GOLD
SPRINGFIELD, Sept. 12.—It was reported to the police yesterday that gold valued at \$227 had been stolen from the offices of Dr. E. A. Sweeney, Phoenix building, and Dr. M. M. De St. Guy at 371 Main street. Entrance was gained by the use of skeleton keys.

TO ERECT NEW BUILDING
Manchester Publicity Association Announces Howey E. Clayton Has Given \$20,000 Toward It

MANCHESTER, N. H., Sept. 12.—The Manchester Publicity Association held its annual meeting last night, more than 200 members attending. The report of the officers showed receipts of \$45,454, and a balance of \$28,255 on hand and \$2000 due from regular and contributing members.

The membership was reported as 519. It was announced by the retiring president, Arthur B. Jenks, that arrangements were in hand for the erection of an industrial building, toward which Howey E. Clayton had contributed \$20,000, an outside industry had been found to lease five-eighths of the building and that there would be no doubt as to the remaining space being in demand.

A nominating committee was appointed to secure a new president for the organization, several prominent members refusing the office.

The following officers were elected: Alfred J. Prescott, vice president; Ernest A. Gurnival, secretary; Benjamin W. Scullis, executive secretary;

BREAD UP TO 12 CENTS

Worcester Bakers Also Raise Price of the Small Loaf From 5 to 6 Cents as a Result of Raise in Price of Flour

WORCESTER, Sept. 12.—As a result of the recent raise in the price of flour and other commodities, Worcester bakers yesterday increased the price of their 16-cent loaves of bread to 12 cents, and the price of the 5-cent loaves to 6 cents, and cut out entirely the manufacture of 3-cent loaves.

Some of the bakers also cut out the manufacture of the 3-cent loaves.

"LITTLE COMRADE"

is a term complimentary to any wife; but how few now-a-days deserve the compliment! If all-health prevents women should remember that there is one tried and true remedy for their ailments, that is Lydia E. Pinkham's Vegetable Compound. This medicine made from roots and herbs has for forty years been alleviating the suffering of women, making them healthy and strong, and better wives and mothers.

MAN STABBED TO DEATH ON EAST BOSTON WHARF

NACONCHIE FIREMAN KILLED—SHIPMATE ARRESTED—JOHN GILSTRAP ACCUSED OF MURDER

BOSTON, Sept. 12.—Albert Newton, 35, married, a fireman on the freight and passenger steamer Nacochie, was stabbed in the heart in a quarrel at the Atlantic Works wharf, East Boston, at 6:23 o'clock last evening and died at 8 o'clock at the East Boston Relief hospital.

John Gilstrap, 22, married, also a fireman on the Nacochie, was arrested at the Orient Heights station at the Boston, Revere Beach & Lynn

railroad, in East Boston, charged with murder. He was arraigned in the East Boston district court this morning. The two men had been drinking during the afternoon, their fellow seamen stated last night, and became involved in a forcible argument over money. Gilstrap maintaining that Newton owed him \$1. The argument was adjourned to the wharf.

In the excitement following the stabbing, Gilstrap made his escape. Lieut. Allen, in charge of the East Boston station, was notified and he sent the police auto to take Newton to the relief station.

With but little to work on other than that Gilstrap had a noticeable mark on one of his eyes. Lieut. Allen, through the police signal system, soon had every patrolman in East Boston on the watch for the accused man. A detail covered the wharves and others were sent to the ferries.

Sergeant Louis Lutz, Special Officer

Rourke, Patrolman Richard Austin of the Boston, Revere Beach & Lynn railroad had been assigned to the Orient Heights section and just before 8 o'clock they noticed a colored man at the depot, making inquiries as to how to get to New York. The detail detained him.

He proved to be Gilstrap and at the station he was identified by other members of the crew as the man who had stabbed Newton. Gilstrap had made a complete change in clothing between the time of the stabbing and his capture.

The men had been good friends until the quarrel. Gilstrap's address is 48 Lombard street, in Savannah, and Newton lived at 123 Minor street, in the same city.

The Nacochie, Capt. J. H. Dizer, plies between Savannah and this city. She arrived here last Friday and after her cargo was discharged she went to the Atlantic Works wharf for repairs to her boilers.

PHILADELPHIA, Sept. 12.—Plans for the advancement of the project for a continuous inland waterway from New England to Florida, both for commerce and national defense, were on the program for discussion by delegates to the ninth annual convention of the Atlantic Deepwaterways association, which opened a five days session here today. Among the delegates

in attendance are congressmen, governors, mayors and prominent business men from many points along the eastern coast.

Representative L. Hampton Moore of Pennsylvania, president of the association, delivered his annual address today.

MASSACHUSETTS, Sept. 12.—What appeared at the time to be an aeroplane disaster of the first magnitude occurred over Salem today just opposite the Willows lake yesterday afternoon, when James McArthur, instructor, and his pupil, George R. Feary, of Boston, apparently planned headlong from a

height of 2000 feet.

Stories that an aeroplane had "exploded" in the air over Salem bay and that two men had been killed spread like wildfire and caused much excitement in this town and in Salem. In response to a call the Salem police ambulance was dispatched to Winter Island to bring back the "bodies."

Neither pilot nor passenger, however, was hurt, and the aeroplane was only slightly damaged.

McArthur, who is the aviator of Godfrey L. and Norman Cabot, had been taking Mr. Feary on an instruction flight, and had turned the machine down after reaching a height of 2000 feet at the same time cutting off the power.

Fearful that over the controls and began a steep spiral glide which appeared, to observers, to be almost a straight drop.

At an altitude of 100 feet the craft was gradually cut out, but owing to a confusion in signals between pilot and pupil the power was not turned on quickly enough and the machine stalled and sank to the surface with one wing slightly lower than the other. As a result the craft struck heavily and the wing lost and central portion were crushed.

Neither of the occupants, however, was thrown out, and they were soon picked up by boats from the Eastern Yacht club. The machine, which is the property of Mr. Feary and Norman Cabot, was towed back to the Burgess company plant here for repairs.

The aeroplane, built by the Burgess

company, is of the Dunne self-balancing type, and both Mr. Feary and Mr. McArthur say that this alone averted what would probably have been a fatal disaster.

SOCIAL AND FRATERNAL

The regular meeting of Gen. Adolbert Ames camp, United Spanish War Veterans was held in the council chamber at city hall last night. There was a large attendance and considerable business was transacted. One new member was initiated in and Adjutant H. W. Chandler, Officer of the Day, H. L. Crowley and Past Commander Gilbert W. Hunt were appointed a committee to make arrangements for a proper celebration of Columbus Day. Interesting remarks were made by Senior Vice Commander Ralph W. Cleason of Rogers, Worcester camp 23, of Boston, a former member of the Ames camp, and songs by Comrade Howard of Maj. P. J. Brady camp 3, of East Boston, were much enjoyed.

Local Int-Unity lodge, #680, I.O.O.F., held its regular meeting at C. A. Hall last evening. N. G. Harold Merrill presided. Several propositions for membership were received and one new member was elected by ballot. Two new members were taken into the lodge, C. John Thomas; G. M. Lee MacKenzie; P. G. Arthur Nelson, and W. James McArthur acting as officers in the ceremony.

COLD DIES OF BURN

Marie Larsen, 7 Years Old, Victim of Matches at Her Home in Roxbury Yesterday

BOSTON, Sept. 12.—Marie Larsen, 7, daughter of Mr. and Mrs. Andrew Larsen, died at the city hospital about 8:15 last evening from burns received in the

afternoon while playing with matches in the hallway of her home at 66 Lawn street, Roxbury, in the absence of her mother.

ROGERS BEFORE GRAND JURY

Cambridge Appointee Who Recently Charged Bribe Sought by City Council

BOSTON, Sept. 12.—Charles M. Rogers, recently nominated by Mayor Hancock for auditor, but turned down by the Cambridge city council, and who subsequently charged in a letter to a Cambridge newspaper that he had been approached while his name was before the council by one of the members with a proposition to turn over to the member \$100, with which amount the member believed he could obtain the votes necessary for confirmation, appeared before the Middlesex grand jury at East Cambridge yesterday.

He was in the jury room about half an hour and it is understood will continue his story Friday, to which date the jury took adjournment.

BRAVES SCORE WIN OVER THE LEADERS

The Braves came back. After the worst week in their history under the reign of Boss Stallings they showed the old fighting pep that was manifested a few weeks ago in their battle for a place at the top yesterday and defeated the Brooklyn leaders by the score of 5 to 1. As Philadelphia also lost, Boston made an important gain in the pennant race.

Ragan not only twirled a masterly game and held the Robins to five scattered hits but also hit for 350. With the Rabbit out of the game with a broken nose and other injuries, Ragan was forced to work in front of a poorly patched up infield. Egan at shortstop contributed three errors. Fitzpatrick at second worked hard but is far from being a star, in his present condition at least.

But despite the lack of snappy fielding, the bats of Gowdy, Ragan, Snodgrass and a couple of hits by the Blackburn succeeded in bringing in more than enough runs to win the game.

Rube Marquard opposed the Braves and his southern delivery was by no means puzzling to the aforementioned Boston sluggers.

Red Sox Also Won

But in Washington the Red Sox also had a victorious afternoon. Dutch Leonard was on the mound with Carrigan behind the bat. The champions were lucky and received all the breaks of the game. Leonard and Shorten drove in the four runs tallied by the Red Sox and the fielding of McNally, Scott and Janvlin featured.

AMATEUR BASEBALL

The Universals Seconds would like to hear from the manager of the Barry Shoe team for a game to be played Saturday. Manager Riley, who has taken the place of Manager Korfe, would like to meet the manager of Barry Shoe on the North common any night between 6.30 and 7.30.

CHARLIE WHITE LOSES CHANCE FOR TITLE

JOHNNY KILBANE AND KID WILLIAMS REMAIN SUPREME IN THEIR RESPECTIVE CLASSES

Although there is a general belief on the part of boxing patrons that Freddy Welsh was the recipient of favoritism on the part of Referee Ritchie in the Labor day bout in Colorado Springs, still it is pointed out by those who have studied the matter that Charlie White has now faced Welsh for fifty rounds—one twenty and three tens—and that the supposed knockout has never put a glove on Welsh with disabling effect. Therefore White has been depending on points to win his battles with the champion, and that is a fact that better boxers than White have utterly failed to accomplish.

Like many other heavy hitters, White does not box well enough to have a chance with a foxy ringster like Welsh.

White, can topple over slow, plodding boys to permit the Chicagoan to set for his left hook, but when it comes to fast, class ring generals like Welsh the left hook expert is helpless. White has missed his last chance to bring home the championship bacon, and there is small chance of his getting another bout with the present title holder.

Kilbane, by his summary defeat of Chaney, removed the last opponent of class from the featherweight division, and the Cleveland will have to resume his regular occupation of toying with easy marks or else to go into the lightweight class.

Many good judges are of the opinion that Kilbane could defeat Welsh, but there would be great difficulties in agreeing on the terms of the match.

The manner in which Kid Williams, the bantam champion, has settled down to business is a distinct surprise to those who thought the Baltimorean was on the down grade. He has now trounced half a dozen good bantams and is ready for all comers.

Incidentally, Johnny Ertle hooked up with the first class boy he has met since he first came east and got a drubbing. Benny Kaufman was his opponent, and while Benny is not a champion by any means, he conquered Ertle thoroughly.

FOOTBALL PRACTICE

College Teams Getting Down to Real Hard Work—Weather is Favorable

The candidates for the Boston College football squad received their first strenuous session yesterday afternoon under the direction of Coach Charles Brickley. For more than two hours some of the men were put through a long signal drill. Another squad spent some time in forward passing, catching punts and running down under the long kicks of Tony and Trowbridge.

Real autumnal weather greeted the Harvard varsity football squad when it began its second week of practice yesterday, and two full sessions were called by the coaches. The tackling dummies were loosened from their reins and the entire squad sent crashing against mimic opponents and the punting artillery got busy with kicks.

The squad figures soared to 67 yesterday, 17 new men showing up for training. Incidentally, the new training table for the varsity athletes was inaugurated among the newcomers to Soldiers' Field was Eddie Casey, the Natick boy who is a contender for a place in the backfield. Casey arrived at noon and was busy with the rest of the squad in the afternoon session.

With a squad now numbering nearly 50, Coach Cavanaugh's charges started on their second week of football training yesterday. "Barney" Thielacher, who for the last two seasons has played a consistent game at halfback, appeared on the field in street clothes and is expected to don the mole skins tomorrow. McDonough, '15, and Malcolm Switzer, '17, who played quarterback on last year's team, also were on the field, as was J. W. Storrs, '15, a prominent candidate for guard. Others who reported were Currier, '17, and Gay, '18, tackles; Selinger, '17, end; Johnston, '18, and Lehman, '18, halfbacks.

THE BRAVES ARE:
3 1/2 games behind Brooklyn.
2 games behind Philadelphia.

THE RED SOX ARE:
1 1/2 games ahead of Detroit.
2 games ahead of Chicago.
2 1/2 games ahead of New York.
8 1/2 games ahead of St. Louis.

If you want help at home or in your business, try The Sun "Want" column.

STRAUS SAYS NONE OF CHILDREN FED BY HIS MILK DEPOTS VISITORS OF PLAGUE

NEW YORK, Sept. 12.—Nathan Straus, who for 25 years has been giving pasteurized milk daily to some 2500 babies in New York, made public today a letter he had written to Surgeon General Rupert Blue, in which he declares that none of the children fed by his milk depots has contracted infantile paralysis. The condition of these babies, said Mr. Straus, "is in no way different from other babies in this city, except that they receive milk that has been made safe for feeding by killing the germs likely to be found in raw milk."

SUICIDE BY POISON

SPRINGFIELD, Sept. 12.—Rev. Arthur Hartwell, aged 45, pastor of the Congregational church in Jamaica, Vt., died in the Mercy hospital yesterday morning as a result of poison, self administered. Mr. Hartwell had been suffering from nervous disorders for several years.

Medical Examiner E. J. Mahoney, after viewing the body, decided that Mr. Hartwell came to his death by his own act, after a period of mental aberration.

TENNIS TOURNAMENT

PHILADELPHIA, Sept. 12.—College players from Leland Stanford, the University of Southern California, Yale, Harvard, Princeton, Dartmouth, Johns Hopkins and the University of Pennsylvania met today on the courts of the Merion Cricket club in the first round of play in the annual intercollegiate championship lawn tennis tournament.

R. Norris Williams, 2nd, the national champion, who won the singles title and paired with Harte, the doubles champion for Harvard last year, graduated last spring and is not in the tournament.

PATSY CLINE EASY WINNER

PITTSBURGH, Sept. 12.—Fighting every minute of the first 10 rounds, Irish Patsy Cline of New York pummeled Fighting Bob of Allentown, Pa., last night, before a big house of 20th Century A. C. members.

Cline's cleverness was too much for the rugged Allentown boy, who missed the fight as he attempts to hand punishment to the New Yorker.

DUNDEE BEATS HAMMER

KANSAS CITY, Mo., Sept. 12.—Johnny Dundee was awarded a decision over Ever Hammer last night, at the end of their 15-round match. The men are lightweights.

PIRATES LET OUT THREE

PITTSBURGH, Sept. 12.—The release of three players to Birmingham by the Pittsburgh club was announced yesterday. They are Pitcher H. L. Douglas, Infielder B. W. Cleveland and Outfielder Eugene Madden.

DIAMOND DAZZLES

The Cubs open up in Boston with a double header this afternoon. Dick Rudolph and George Tyler are the pitching probabilities.

Johnny Evers is due to report with the Braves today. His answer to Stallings' telegram was: "Am in bad shape. Will report Tuesday."

Rabbit Maranville is not expected to be back in the game until after the Cub series.

The defensive work of McNally, Scott and Janvlin featured the Red Sox Washington game yesterday.

Considering the Red Sox are playing with only two-thirds of their lineup and a kid infield they are not doing so badly.

Jack Egan, who caught for Lowell the last few games of the season, is now with Providence. Newark also has a catcher named Egan and both worked in the same game Thursday.

Wilbur McGraw, a young catcher from Allentown, N. Y., has been stuck by the Braves and is expected to report today.

Egan comes a long way from filling the bill in the Braves infield. His three errors at shortstop yesterday were inexcusable.

Hank Gowdy is swinging the willow with the same effect as in the world series in 1914. His two doubles and two singles were a great help yesterday.

The Giants made a clean sweep of the series by winning from the Phillies. Kauff, in four times up, cracked out a home run, a double and was passed twice.

Hellmuth, who substituted at first base for Detroit yesterday, made three singles, a double and a triple in five times at bat.

Bill Worham is progressing rapidly for the Cubs.

Manager Carrigan says he regards Babe Ruth as one of the most valuable men in the big league ranks today. Fine tribute to the youngster.

Joe Judge evidently has not suffered to any great extent by his recent injury, judging from the manner in which he is playing for the Senators.

Casey Stengel has played a rattling good game for the Dodgers, and if they drop from the pennant hunt at the 11th hour it will be through no fault of the talkative sunfisher.

Cleveland has made more money this year than in any other years. The acquisition of Tris Speaker was a big strike. Spoke has been a huge drawing power to the Duncans, but a slight relapse proved costly for them.

It is understood that several major league clubs are "checking" for the services of Les Galloway, the star outfielder of the Newark Internationals. Galloway is under option to Brooklyn, and the chances of his entering any other fold are very slim.

ONLY GODS KNOW WHEN BREMEN WILL ARRIVE

DIRECTOR OF LINE REPIES TO QUESTIONER—NEW MERCHANT SUBMARINE COMING

BERLIN, Sept. 11, via London, Sept. 12.—Reports from Bremen say that another merchant submarine is expected to leave that port for the United States at the end of the present month. None of the projected sister ships to the Deutschland and Bremen has, however, been completed yet, according to a statement by Philip Heincken, one of the directors of the Ocean Navigation Co., owners of the Deutschland.

Asked when the Bremen was expected to arrive in America, Director Heincken said: "Only the gods know" and refused to discuss the matter further.

URGENT PREMIER ZAIMIS TO RECALL RESIGNATION

REUTER DESPATCH FROM ATHENS CONFIRMS REPORT OF HIS RESIGNATION

LONDON, Sept. 12.—A Reuter despatch from Athens says that the report that Premier Zaimis has tendered his resignation is officially confirmed and that every effort is being made to persuade him to withdraw it.

STATE WIDE PRIMARIES IN SOUTHERN STATES

DEMOCRATS IN GEORGIA, SOUTH CAROLINA AND LOUISIANA VOTE TODAY

ATLANTA, Ga., Sept. 12.—Democrats of the States of Georgia, South Carolina and Louisiana, today balloted in statewide primaries for nominees for the November election. In South Carolina and Georgia interest centered in gubernatorial races while in Louisiana contests for congressmen and court of appeals attracted most attention. Nomination is considered equivalent to election in all three states with the possible exception of the third Louisiana congressional district where Walt Martin, progressive now holds the seat in congress and is a candidate for reelection.

SAYS DEMOCRATS WILL DO SWEEPING IN NOVEMBER

MCCORMICK SAYS ELECTION IN MAINE INDICATES VICTORY FOR PRESIDENT WILSON

NEW YORK, Sept. 12.—Chairman McCormick of the democratic committee issued the following statement: "The result of the election in Maine indicates a sweeping democratic victory in November. I have never claimed that we would win in Maine, because I realized to carry such a rock-ribbed republican stronghold in a presidential year would be practically impossible. We have materially reduced the usually large republican majority, always obtained on national issues in that state, and that insures the election of President Wilson in November by an impressive majority, just as a republican plurality of 12,500 in September 1912, preceded the election of President Cleveland in November.

"It is the first time United States senators have ever been elected in Maine by popular vote, and the sentiment as to national issues is to be gauged by the vote cast upon the same issues in other years."

Chairman Wilcox of the republican committee telephoned from Syracuse, a statement in which he said the result of the Maine election means a reunited republican party, assuring the election of Charles E. Hughes in November.

150 RAILROADS REPORT NET REVENUE FOR JULY

\$93,415,261 AS AGAINST \$75,525,939 FOR JULY 1915—GROSS REVENUE \$265,517,824

WASHINGTON, Sept. 12.—Net revenue from railway operations of \$93,415,261 for July, as against \$75,525,939 for July 1915, for 150 railroads, was announced today by the interstate commerce commission.

The gross revenue for the roads reported was \$265,517,824, or more than \$40,000,000 over a year ago. The gross expenses were \$172,102,560, or about \$21,000,000 over a year ago.

AMERICANS ENTERTAINED

Commission Visiting Europe to Secure Better Commercial Relations by International Co-operation Honored

PARIS, Sept. 12.—The American industrial commission, which is visiting Europe to secure better commercial relations by international co-operation was entertained at lunch today by the republican club of commerce, industry and agriculture. Later a dinner was given the commission by the American chamber of commerce at which several senators, deputies and leaders of the French industrial world were present.

GRAND CIRCUIT RACES

SYRACUSE, N. Y., Sept. 12.—Lee Axworthy, the world's greatest trotting stallion, attempted to lower the state fair track record of 2:01 1/4, now held by The Harvester, at the second day's meeting of the Grand Circuit here today. Evidently there were five racers with \$12,250 offered in purses. The feature race was the Empire state, with a purse of \$10,000 for 2:05 trotters, which was expected to be a duel between Mabel Trask and St. Frisco.

NORWEGIAN SHIP SUNK

LONDON, Sept. 12.—The Norwegian steamship Lyckorken, 530 tons gross and owned in Bergen, has been sunk. The crew was landed.

QUESTIONS FOR HUGHES

Some Pertinent Queries on Political Issues by Democratic Campaign Book--Will He Answer?

Candidate Charles E. Hughes and the republican party are challenged in the democratic national textbook, which came from the press today, to speak out for or against the record of achievement made by President Wilson and the democrats.

The challenge is issued in 21 brief, direct and pointed questions addressed to Mr. Hughes and the republicans by the democratic national committee and the democratic congressional committee. All the large issues, domestic and international, are treated. The questions carry the caption "Appeal for Light for Sixteen Million Voters: Let Mr. Hughes and the Republican Party Answer."

These questions are:
1. Do you favor repeal of the federal reserve act passed by a democratic congress, recommended and approved by President Wilson, under which the danger of financial panics is forever banished from the United States?
2. Would you have protested against the violation of Belgian neutrality and have backed the protest by plunging America into the European carnage of slaughter?

3. Do you favor repeal of the rural credits act, passed by a democratic congress, recommended and approved by President Wilson, which gives long-term credit at interest rates that promise an annual saving of \$150,000,000 to the farmers?

4. Would you have recognized Victoriano Huerta as president of Mexico?

5. Do you favor repeal of the Clayton anti-trust act, passed by a democratic congress and approved by President Wilson, which overthrew the principle that the labor of a human being is a more commodity of commerce?

6. Will you, Mr. Hughes, recommend, and will the republican party in congress support a law establishing universal compulsory military service in the United States?

7. Do you advocate repeal of the federal trade commission act, passed by a democratic congress, recommended and approved by President Wilson, which has given so much assistance to legitimate business enterprises and under which adequate protection against unfair competition is provided?

8. Would you, Mr. Hughes, have tried the policy of diplomatic negotiation as a means of summoning the moral force of law and neutral opinion to stop Germany's illegal use of submarines?

9. Do you favor repeal of the "parking" good roads act, passed by a democratic congress and approved by President Wilson, for the development of rural highways?

10. Would you, Mr. Hughes, have broken relations with Germany and sent your young men by the hundreds of thousands to nameless graves at the bottom of the Atlantic or in ghastly battlefields before the policy of diplomatic negotiation had had thorough trial?

11. Will you undertake to repeal the income tax, passed by a democratic congress, recommended and approved by President Wilson, which places a just share of the burden of taxation upon those best able to bear it?

12. Do you favor violating neutrality and risking the future safety of your country by placing an embargo on munitions of war?

13. Do you favor repeal of the agricultural extension act, passed by a democratic congress, recommended and approved by President Wilson, which for the first time provides facilities for carrying direct to the farmer practical scientific knowledge of how to increase the profits of his farm?

14. Do you favor intervention in Mexico?

15. Do you advocate repeal of the grain standards and warehouse acts, passed by a democratic congress, recommended and approved by President Wilson, which aid commerce in the grain staple cereals and enable owners of stored agricultural products to secure loans on warehouse receipts on better terms?

16. What is your attitude towards the disloyalists of your party who have attempted to prevent the enforcement by President Wilson, both on the part of the American government and by all American citizens, of an honest neutrality towards all the warring nations of Europe?

17. Inasmuch as the largest amount collected in any one year under the

highest tariff ever enacted (Payne-Aldrich act) was \$33,000,000 (that form of taxation would) you substitute to pay a "preparedness" cost of \$630,000,000?

18. Do you favor the reactionary republican plan of granting huge subsidies to favored corporations, money collected from the people by taxation, as the best way of encouraging the development of an American merchant marine?

19. Do you favor repeal of the child labor law, the anti-injunction law, the seamen's act and related social justice measures of high importance, passed by a democratic congress and recommended and approved by President Wilson?

20. Do you favor re-enactment of your party's campaign pledge of 1908 and which has been repudiated by many republican and all progressive leaders?

21. Do you stand with those progressives and progressive republicans in congress who voted for practically all the progressive measures mentioned above, or do you stand with the reactionary republicans who voted against them?

In conclusion, the two democratic committees say:

"President Wilson and the democratic party submit their case to the American people on the record they have made. Sincerely speaking, that is the issue of the campaign. Upon the public survey and estimate of that record depends the outcome of the election."

"If, as charged by you, Mr. Hughes, and your supporters, that record is bad and does not justify the continued confidence of the country it will become your duty, if elected, to do all in your power to change that record. We submit that in all fairness the American people, for whose verdict you are contesting, are entitled to know how much of this record you and your party will attempt to destroy if placed in power."

WED ABOVE THE CLOUDS

Harry Blanchard and Miss Mildred M. Tibbitts of Sandwich, N. H., Married on Mt. Washington

MT. WASHINGTON, N. H., Sept. 12.—For the first time in history a wedding was performed on the summit of Mt. Washington at 10 o'clock yesterday. Harry Blanchard and Miss Mildred M. Tibbitts of Sandwich, N. H., were married standing out on the rocks on the crest of New Hampshire's grandest mountain, in the presence of more than 100 visitors. Rev. E. S. Collier, pastor of the M. E. church at Sandwich, N. H., officiated. The wedding party came up by the train yesterday, returning late in the afternoon.

281 YEARS OLD TODAY

Historic Town of Concord Was Incorporated September 12, 1635—No Public Observance

Two hundred and eighty-one years ago today historic Concord was incorporated. The date of incorporation was Sept. 12, 1635, 15 years after the landing of the Pilgrims at Plymouth in 1620. There will be no special observance of the anniversary today except that "Old Glory" will be floated from public and private flagpoles throughout the town.

INSURANCE AGENTS MEET

BOSTON, Sept. 12.—Insurance men from all parts of the country gathered today for the opening of the annual convention of the National Association of Insurance Agents. The convention will last three days.

17 OF CREW RESCUED

IN BOSTON—The Sun is on sale every day at both news stands of the Union station in Boston. Don't forget this when taking your train for Lowell.

WEDS MAN WHO FELL IN LOVE WITH HER PICTURE

MISS MARIE BECKMAN SECRETLY MARRIED TO JOHN L. BARLOW, JR., OF NEWPORT, ON SEPT. 2.

BOSTON, Sept. 12.—Miss Marie Beckman, of 42 Tremont street, Brighton, well known throughout art circles of Boston and New York for her beauty, was secretly married on Sept. 2 to John L. Barlow, Jr., of Newport, who claimed yesterday that he fell in love with his girl-bride before he had ever seen her.

Last spring Mr. Barlow attended an exhibit of Boston paintings, and was instantly smitten by the appealing charm of one styled "The Candle Light." It was from the brush of Clarence Green. It portrayed a 20-year-old girl ascending a flight of stairs, her features illumined by the glow of a candle she carried in her hand. The girl was Miss Marie Beckman. By strange coincidence, Mr. Barlow met the original of the portrait a week later.

"It was a case of love at first sight," declares Mr. Barlow, "for I had fallen before my wife's charm when I first beheld her features in 'The Candle Light.'"

FOUND UNCONSCIOUS IN A BATHTUB

18-YEAR-OLD DORCHESTER GIRL NEARLY DEAD WHEN FOUND—EXPECTED TO RECOVER

BOSTON, Sept. 12.—Miss Dorothy Shepard, 18-year-old daughter of Mr. and Mrs. Walter Shepard, was yesterday afternoon taken unconscious from the bathtub at her home, 79 Bloomfield street, Dorchester.

The parents claim that their daughter was merely in a faint when taken from the bathtub.

Mrs. A. E. Pringle, 55 years of age, grandmother of the girl, was alone in the house with her at the time she was supposed to be taking a bath. Mrs. Pringle called the Dorchester police over; the telephone after she had smelled gas pouring from the bathroom.

Upon their arrival the door was broken down and Miss Shepard taken unconscious from the bathtub, filled to overflowing with water. A rubber tube, one end connected to a gas jet, dragged upon the floor. On a chair close by lay an empty two-ounce bottle labeled chloroform. The body lay in the bathtub in a semi-reclining position with the head and one arm hanging over the side.

Dr. Herbert R. Norton of 11 Bloomfield street, the family physician, was called and ordered her removal to the City hospital, where it was stated she was suffering from gas poisoning, but was not in a dangerous condition.

POLICE TAKE DESPERADO WITHOUT A STRUGGLE

CAMDEN, N. J., MAN CHARGED WITH MURDER OF AGED JAIL GUARD ARRESTED IN BOSTON

BOSTON, Sept. 12.—Entering his lodging room in Concord street, South End, late yesterday, George E. Thompson, 41, found himself looking into the business ends of three revolvers, two of them held by Inspectors Burke and Haggerty of the bureau of criminal investigation, who forthwith arrested Thompson for murder.

It is alleged that two months ago Thompson, then a prisoner in the Camden county jail at Camden, N. J., and another prisoner shot and killed an aged jail guard.

The arrest yesterday was brought about through Augustine Gribbin of the county prosecutor's office at Camden, who since the murder has visited 18 states in his search for Thompson. Gribbin was the third member of the trio who faced Thompson.

Gribbin came to Boston several days ago and Chief John McLean assigned Burke and Haggerty to assist him. The trio traced Thompson to his room. The place was shadowed, and yesterday noon when Thompson left the house, the three entered and hid in his room.

When the officers covered Thompson with their revolvers he raised his hands and surrendered. A search of the prisoner showed that he was without weapons.

Thompson, doing time for forgery, and another prisoner named Ashbridge, doing time for murdering a woman, were confined in a big iron cage in the Camden county jail. It is claimed that July 17 the pair induced a 70-year-old jail guard, Isaac Tibbitts, by name, to come close to the side of the cage. Then one of the prisoners shot him, killing him instantly. The two prisoners reached through the bars of their cage and tore the cell keys from the dead guard's hands. Hastily unlocking the door of the cage, they fled down the corridor. Ashbridge guard tried to stop them, and in doing so was wounded.

Both men escaped. Ashbridge soon to be taken, but Thompson got clean away. Gribbin finally got a tip that Thompson had come to Boston.

Thompson at headquarters told the police he had been in Boston ever since last night. He said that he felt he could gain nothing by fighting extradition, and would therefore waive proceedings and go back to New Jersey for trial.

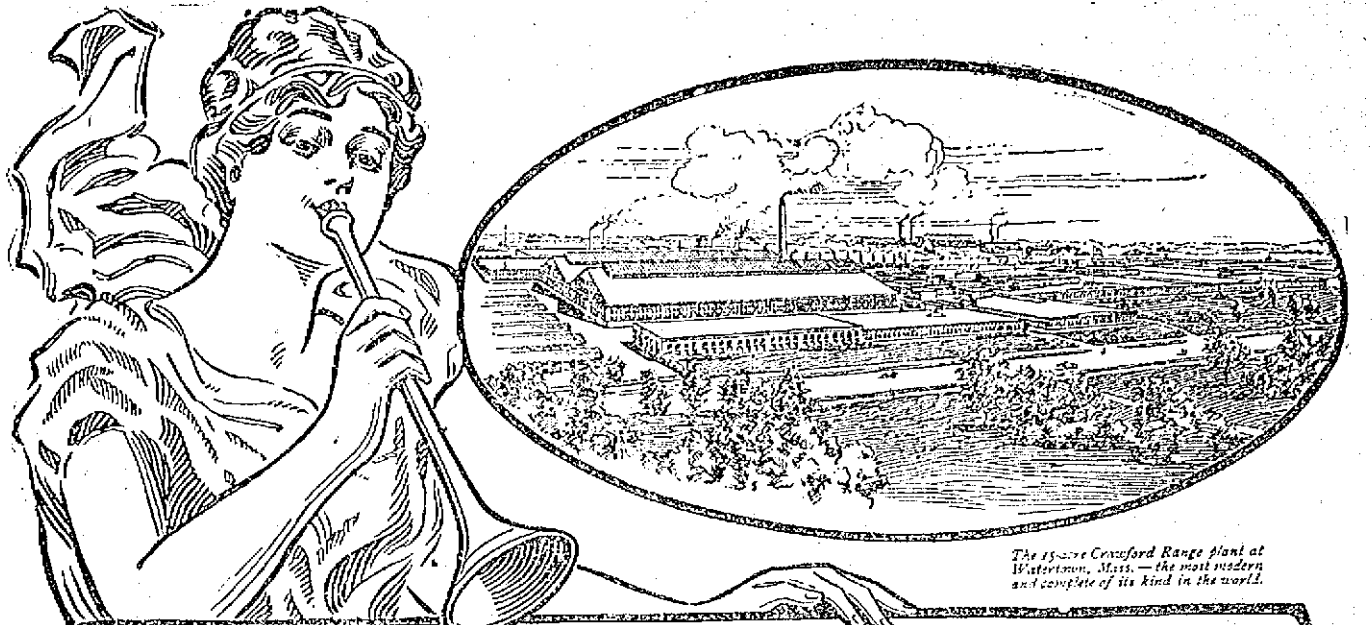

He was pictured and measured for the gallery. When the officers gazed at the beauty of his signature he said with a smile: "That's what put me here—being a fine writer."

It will be arranged today in the municipal court on the fugitive charge, and if he then is of the same mind and consents to return for trial in New Jersey without further formality, will be released in the custody of Gribbin to be taken back for trial.

CAR DROPS INTO RIVER

Mortality of Holyoke Planned Under Wreck at Greenfield, But Is Merely Drained

GREENFIELD, Sept. 12.—Harold Mortality of 136 Pine street, Holyoke, and George W. Cook, Jr., 115 Walnut street, Holyoke, were dropped into the Green river here yesterday when the car in which they were riding skidded, went through a fence on Deerfield street and into the river. Mortality was driving the car, which overturned, pinning him underneath. Cook jumped and was uninjured. Mortality was only slightly bruised. The car was badly wrecked.

The Crawford Range plant at Watertown, Mass.—the most modern and complete of its kind in the world.

A Message To Women Only

Three kinds of women are interested in this message. The woman who cooks for a living. The woman who cooks for her family. And the woman who orders her cooking. The Kitchen Range is a vital factor in the happiness of any family! It is related to the health of the family. Not merely a good range—but the best range is as important to you as the food which it cooks.

Crawford Ranges

are a life investment for every home. A woman can proudly say "My Crawford" to her friends.

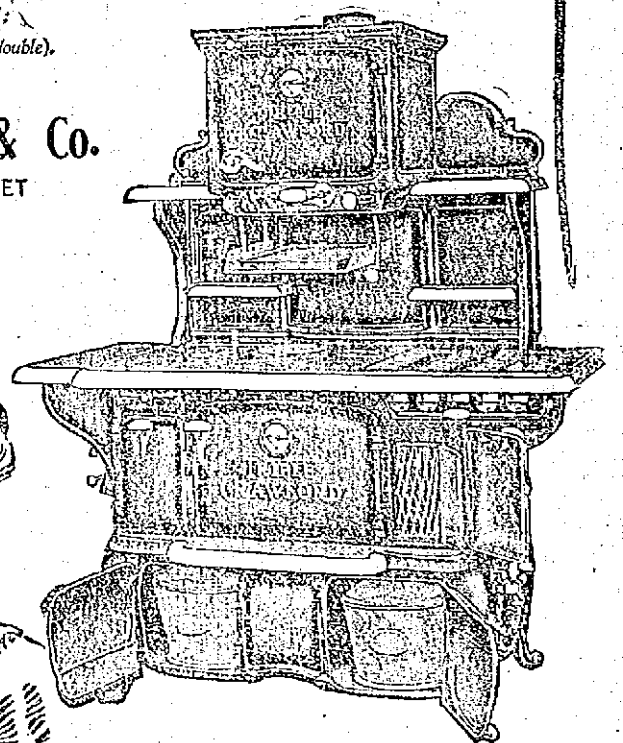

The Crawford Range is the perfect Range. It has at least 20 distinct advantages (some of them patented) over all other Ranges.

There is the "Single Damper" that makes cooking in a Crawford automatic. Fire and oven are regulated by one motion.

Gas oven if desired; end (single) or elevated (double).

THE TEXTILE MARKET

Trade in Most Lines is Very Active—Prospects Encouraging—Buyers Expected in Market Soon

Textile World Journal, New York city, in today's issue gives the following analysis of the various branches which comprise the textile industry.

On a basis of 15 cent cotton, it is only natural that cotton manufacturers should exhibit an attitude of very great independence. The advice of selling agents to sell as far ahead as the buyer is willing to operate is not being accepted in all cases, because of the other elements which enter into the situation. The reduced selling capacity and increased overhead by reason of inability to operate plants to their limit, are decided factors in the situation from the manufacturer's point of view.

Many sellers today have no prices on cotton goods, all lists being withdrawn. They will name quotations only upon advice received from the mills. The irregularity of cotton of late has not caused any apprehension as to the effect upon prices, because of the fact that it is contended that raw material could go on several cents a pound without having any influence at all upon the market for piece goods. Colored goods are surprisingly steady and high, but predictions are made

that they will show even further advances.

The men's wear market is very quiet. The rise in price of cotton warps is an element that may add to the seriousness of the situation from the manufacturer's standpoint. It may affect the volume of business on cotton wearables which have shown a tendency toward greater activity in face of the radical advance in all worsted lines.

Dress goods are slightly more active, with fancies showing better conditions every day. The situation on cotton wovens is just as serious in this division as in the men's wear market, but demand for goods is more insistent in view of the early absence of buyers from the market.

Trade in underwear is quiet because jobbers are well covered ahead, and the inquiries received are not finding a place because only late deliveries are available. Higher prices bear a certainty for the future. Certain prices quoted last week have been withdrawn, but although quotations are high, prospects are thought to be favorable for a brisk trade.

The present confusion in prices, quantities and deliveries of hosiery has seldom been as available. Higher prices in cotton and yarns have put a good many manufacturers out of the

market. While a considerable number of hosiery buyers are shopping about the market, they are seeking decidedly little. The needle scarcity has caused the shut down of numerous machines, with consequent curtailment of product.

Prices continue to climb in the cotton yarn market, and changes upward are noted from day to day. All offers are being submitted to spinners for confirmation. Contracts have been placed in certain quarters for four or five months, and considering the level of the market, this disposition to buy ahead is regarded in certain quarters as unhealthy. Buyers are expected to be in the market soon for weaving yarn, but it remains to be seen whether they will pay the asking prices.

Wool buyers are not in the market as yet, and business locally is very small. Prices are firm, however, and are expected to rise higher.

The silk market is quiet with shaded prices of Yokohama and Canton grades. Importers are being faith in the present levels, despite the fact that actual cause for weakness has developed.

QUANNAPOWITT FAIR

The horse racing will be the big feature of the sports program of the fair. The races include eight 100 yard mile events, in which over 50 of the New England circuit trotting and pacing drivers will start each day. These races will be held each afternoon. The classes include the 215, 225, 125 and 150 pound events, the 3 and 4 mile races and the 215, 219 and 225 pound races.

The Quannapowitt and Lynn Driving clubs will hold a matinee inter-club wood, and a quarter admission charge puts the big educational and sporting outdoor event of the season within reach of all classes of the people.

The organization of the fair management this year is headed by Henry A. Upton of North Reading, president; H. C. Barrows of Wilmington, vice president; E. Horace Perley of Wakefield, secretary; Arthur W. Colledge of North Andover, treasurer.

driving contest Saturday afternoon. A dinner set and three breakfast china sets have been donated by the Moxie company as prizes for the horse racing events in addition to the purse awards.

H. A. Brackett of Reading has charge of the horse racing and entries. In the mornings of the four fair days an old-fashioned work horse parade is scheduled, together with a horse and pony show, an auto parade and show, and farmers' contests. There will also be baseball and athletic sports on the track, a balloon ascension and parachute jump every afternoon and a high class vaudeville show and band concerts daily at the grand stand.

Governor McCall will be a guest and will speak Thursday, Sept. 14.

The "Wonderland midway" on the "west coast" will be more wonderful than heretofore and will please the tastes of the most fastidious seekers after novelty and fun.

Over \$5000 in prizes, premiums and purses have been offered by the management in addition to the program of attractions on the race track, the stage, midway and exhibition hall. The plans of the management make the fair and carnivals show the most attractive fair ever held in eastern Middlesex and metropolitan Boston. A quarter admission charge puts the big educational and sporting outdoor event of the season within reach of all classes of the people.

The organization of the fair management this year is headed by Henry A. Upton of North Reading, president; H. C. Barrows of Wilmington, vice president; E. Horace Perley of Wakefield, secretary; Arthur W. Colledge of North Andover, treasurer.

OUR "TEMPORARY" PROSPERITY

The present prosperity of this country is one of the strongest arguments for the re-election of President Wilson and his opponents know it. They may rail as they will about the unsoundness of it; they may weep crocodile tears because of the war origin of it; they may make doleful predictions about dreadful days to come. It is sheer tenuity and is not convincing.

The ordinary citizen knows that the country is more prosperous than it has ever been before. He knows that he can get a good day's wages for a good day's work, that mill and factory and farm and store are reaping a golden harvest, that there is a job for everybody who wants it and that there is no preventable unemployment—and all the wailings of the political prophets cannot shake his faith in things as they are.

Realizing that the argument is wholly with the present administration, republican campaigners are using their rhetorical battering rams on the strong wall of prosperity, but in vain. They may build up a fine texture of sly and shallow suppositions, but when they come to use them as a blow at the present administration, they are lost rhetorically and actually. Even though they should make all the points that there will be dark days after the war, they cannot shake the confidence that most of the American people repose in the leader who may have brought on the present prosperity but who has done more than any president in recent years to prepare the country for prosperity and to show the people how to make the most of their great opportunity.

Let us consider, for the sake of argument, the possibility that the close of the war will cut off a portion of the foreign demand for American products and otherwise interfere with American trade and commerce. What is there in the record of President Wilson that would make the outlook bad from the political point of view? The start of the war brought on a critical period. International trade was temporarily crippled; finance was disorganized; American securities were dumped on our markets from all foreign capitals and stock exchanges closed as a measure of precaution. Yet there was no lack of prosperity and there was no panic.

Even the most hide bound republicans will admit that were it not for the currency bill of this administration, the country would have been dealt a staggering blow. Yet, when President Wilson was striving to push the bill through congress, we were told that it would destroy prosperity. No measure for half a century has meant more for the rank and file of Americans and the president who worked so untiringly for it against strong and organized opposition can be trusted to act wisely should another critical time come.

Again, there is the tariff argument—always a republican slogan at campaign time. To listen to some of the Hughes boomers, one would think that this administration is out to cripple American business in order to fatten foreign manufacturers and exporters. No party has ever yet made a flawless tariff, but it remained for President Wilson to make the first honest open tariff in the history of the country. Surely nobody is foolish enough to believe that if foreign-made goods are dumped on our markets to a degree that would prove a menace, this administration could not find a way to offset it. The president who has favored a tariff commission, who has made possible a scientific trade commission, who has worked untiringly for the creation of a better spirit between the government and business and who has revived the American merchant marine, is not going to deliberately ruin American prosperity. Mr. Hughes is in favor of protection, and there are a great many powerful personalities who likewise favor it, but the American people have not forgotten what protection meant in the days of republican success.

Every move made by President Wilson in the past four years has been a boost for American prosperity, and his critics cannot gainsay it. All they can do is to cry out insincere warnings and pretend to believe that prosperity is "temporary." It will last while the war lasts, they say, and yet they want Mr. Hughes as president in order that it may last longer. Presumably, should Candidate Hughes be elected, he will do everything in his power to keep the war going so that the profits of his supporters may not be decreased. As a matter of fact, our present prosperity is dependent on the war, neither President Wilson nor Mr. Hughes can prolong it or ruin it, but if dangerous days come, the country can trust the president who has conserved national prosperity and who has stood for the best interests of America and Americans.

PINCHOT'S PIFFLE

The paralysis of Gifford Pinchot's pen would be regarded in newspaper offices as a rare occurrence. Almost like the blossoming of a century plant or the disappearance of a planet, having made a political reputation in the dark days of the Taft-Roosevelt controversy, he loses no opportunity

to keep his name in the political columns and he is so sure of editorial sanction in some quarters that his naive assertion "It is the duty of every American citizen to make and support openly his choice among the candidates for the presidency," has an element of unconscious humor.

"I am writing to give you my reasons for my own choice," winds up the first paragraph, and then follows a column of political rot very loosely thrown together to make the reader see why Gifford Pinchot cannot trust "Wilson" and why he can trust Hughes. Incidentally, the personal pronoun is much in evidence throughout and the letter winds up with the grandiose boast: "Therefore my choice is Hughes and I shall work and vote for him." Unless he changes his tone before he writes the next voluminous letter, he is apt to defeat his purpose and support President Wilson unwittingly.

Boiled down, here are some of the arguments used against the president. He permitted Mr. Bryan to tell the Austrian ambassador that the note to Germany did not mean what it said; he did not give us peace with self-respect; he "did not raise a finger to put us in a condition of defence" for more than a year after the outbreak of the war; he conducted "the most secret administration of our time;" he advised the country to be neutral while "our friends abroad" were engaged in war—and so on. All through the letter is the charge that everything the president has done has been done for political expediency.

It sounds very American and pompously patriotic, but it does not state that President Wilson's political expediency made him cast off any support that was actuated by a leaning for any foreign power. There was a chance he missed. Neither did he offer the post of secretary of state to Mr. Pinchot! On what slight omissions hangs the fate of nations!

EDUCATIONAL OPPORTUNITIES

It is a truism that the average boy or girl does not see the value of education until he or she is out fighting the battle of life. Through school days many long for the freedom of a workaday world and pine for the pay envelope, but soon the lost opportunities of training and education come back to mock the thoughtless. There was a time when to leave school meant to sever all relations with what it meant, but that time is past and today there are educational opportunities aplenty for those who care to avail of them.

This is the time for working boys and girls and young men and young women to make wise plans for the season ahead. It is all very well to patronize the movies and the dance halls and to pore over the cheap novel, but the time so spent brings no results worth having. The time that will pay interest a hundred fold is the time profitably spent in training mind and hand to take a greater part in worth while affairs and to reap a greater share of the profits.

Lowell is not wanting in educational opportunities for all who seek. Whether it be the evening textile school courses, the vocational school, the high school, or some private school or college, there are many openings for the really ambitious who have a definite object in view. Time spent in one or other of those schools is spent pleasantly and may be made more enjoyable than the silly frittering that brings no results. For those who wish to study the higher branches, the new state university extension is available, and the wise will not be slow to grasp what is offered at slight expense or none at all.

Needless to say, those who have found their respective groove in the business world and who are satisfied ought to take up lines of study that will advance them where they are. The office boy can in time take his place at the desk; the clerk can become second hand; the clerk can become manager; the junior bookkeeper can become head accountant, and so on down the line. There is no such thing as enough education. One cannot have too much of it and no one is too old to learn.

THE MAINE ELECTION

Unquestionably the republicans will rejoice over the result of the Maine election and will strive to give the impression that it represents the sentiment of the country. Had they gone under in the contest it would have been a trifling blow. Maine is normally a republican state and always has been so except in 1912 and in one or two other instances when political conditions were upset or when some local consideration swept aside party lines.

All that can be said of the recent election is that Maine is setting back its place in the republican column, although with a much reduced plurality. The republican candidate for governor has won by an estimated plurality of 12,000, but the average Maine plurality

for a republican candidate has been over 20,000. When this is considered, it will be difficult to see in the Maine election any great cause for republican rejoicing beyond the expected swing of a state according to its party alignment. The result shows that the progressives are returning to their old allegiance to the extent of perhaps 20 per cent.

The loss of a senator and a representative is of more moment to the democratic party than the success of the republican candidate for governor, but this has been due to internal Maine politics, which can neither be understood nor estimated elsewhere. It does not indicate the attitude of the people towards President Wilson, whose personal popularity with the people is a cause of alarm to republican campaign managers. True, Mr. Hughes made many bitter attacks on the president in the Pine Tree state and nothing was left undone in the line of misrepresentation. The Maine returns are in a measure gratifying to the republicans, but they are by no means harmonical.

AH—AT LAST!

If the world does not now know why Mr. Hughes will not declare what is his personal Mexican policy, it is the world's own fault, for it is all down in black and white. Ralph Cole, chairman of the speaker's bureau of the republican national committee, explains it in one of the "information sheets" which are gotten out for the newspapers. Mr. Cole says:

"It is highly amusing to me to note the somewhat frantic insistence of certain of Mr. Wilson's supporters that Governor Hughes announce a more constructive policy: tell what he would have done in Mexico. And what action would he have taken with regard to various phases of the European war, etc. But why should he? Mr. Hughes is not in possession of the facts, the inside facts. Mr. Hughes, not being in possession of the inside facts, might easily make himself ridiculous were he to undertake to say what he would have done."

Now, that's really worth waiting for! Mr. Hughes, not knowing the facts, "might easily make himself ridiculous." But, Mr. Cole, surely it is not too much to ask that your candidate learn the facts on such an important matter before he says anything at all about it. He has already made himself more or less ridiculous by giving the democrats so many opportunities to ask "Well what would you do?" Mr. Hughes is rather unfortunate in not knowing the facts, because the people generally demand facts from presidential candidates.

SEEN AND HEARD

The chap who forgets is not likely to be remembered.

A henpecked man is a silent partner in his wife's woes.

The woman that is bound to have her own way misses a lot of happiness.

The Scranonian says as a rule the critic is the fellow who has not much else to do.

"Two-two" is the name of the latest dance. Toot-toots to start two to two-two.

"Some women only give a dinner party just to show that they know the rules of etiquette."

If a girl lives long enough she will find out that it is the man's man who is always on the square.

There are higher things in life for a woman than a good complexion—A pretty bonnet, for instance.

The Florida Times-Union says give a girl a rose and a violet and she'll give you at least give two cents for her.

"Do you know where I can buy any counterfeit money?" inquired the man with a suitcase.

"Are you looking for trouble?"

"No. But I'm up against the tipping evil and at the same time I want to go through the formalities and avoid being made uncomfortable by the waiters."

Worth Looking Over

For Sale—Four work horses, 3 fresh

Indoor Life Makes Fat

TRY OIL OF KOREIN TO REDUCE SUPERFLUOUS FAT

People who are confined within doors and who are deprived of fresh, invigorating air and exercise must take precaution to guard against overweight. It is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air is said to weaken the oxygen carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unhealthy and unhealthy fat is the result.

If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by carrying this excess burden. Any persons who are satisfied in their own mind that they are too stout are advised to get to W. D. Davis & Co., or any good druggist and get a box of oil of korein capsules, and take one after each meal and one just before retiring at night.

After a few days treatment has been reported to show a noticeable reduction in weight, improved digestion and return of the old energy. Considerable improvement as well as fat dissipation.

Oil of korein is inexpensive, cannot be abused and helps the digestion. Any person who wants to reduce 15 or 20 pounds is advised to give this treatment a trial.

CENTRAL STREET

Call at this office.—The

Manuf. (Opp.) Times

Justified

"Look here, Snip," said Slowpay in

indignantly to his tailor, "you haven't

put any pockets in these trousers."

"No, Mr. Slowpay," said the tailor,

with a sigh; "I judged from your

account here that you never had anything

to put in them."

Hard to Sult

"I can't find any old clothes to put on

the scarecrow," said Farmer Corn-

sel.

"You might use some of the fancy

suits our boy Josh brought home," sug-

gested his wife.

"I'm loath to scare the crows; I'm

not 'tryin' to make 'em laugh."

I Can't, I Won't and I Will

Three little boys in a rollicking mood

Out in the snow at play;

Their hearts are light, for the sun is

bright.

On this glorious winter day,

Three little boys shout shouts of glee

Slide down a snowy hill

And the names of the rollicking little

boys

Are "I Can't," "I Won't" and "I

Will."

But play must cease, and a warning

Calls out from the open door:

"Come, boys, here's a task for your

nimble hands."

"We must have it done by four."

"I will speeds away at his mother's

command.

With a cheerful and sunny face,

And "I Can't" follows on with murmur

And groans

At a weary and lagging pace.

But "I Won't," with a dark and angry

frown

Goes sauntering down the street,

And suddenly he turns time away.

"Till he thinks his task complete."

At school "I Will" learns his lessons

all

And he seldom answers or late.

"I Can't" finds the lessons all too hard.

"I Won't" hates book and slate.

So the seasons come and the seasons

go.

In their never-ceasing race,

And each little boy, now a stalwart

And the busy world finds his place.

"I Will" with a courage undimmed,

"I Can't" with high and resolute aim,

And the world is better because he

lives.

And he gains both honor and fame.

"I Can't" finds his up-hill road;

He spends his life unloved and un-

known.

And so at what others have

wrought.

And so in his selfish blindness wrapped

He dies and is soon forgot.

—Selected—

He Got It

"When Jones bought his new house

it was with the express understanding

that he should have room all of his

own—a den or study."

"Yes, I know what you mean. Did

he get it?"

"Yes, and his wife furnished it."

"How?"

"With a sewing machine, a cutting

table, two dressers, a dresser, three

sewing chairs and a full-length mir-

ror."

Suitable Name

A little girl of the past life cele-

brated her fourth birthday last week

and received a T-doll bear. The bear's

eyes were set so perfectly and as a re-

sult it looked cross-eyed. The child

said nothing about its eyes, though

and so no comment was made about

them by the rest of the family. But

when the little miss came home from

Sunday school she informed the house-

hold that she was to call her bear

"tidally."

"Why, what a peculiar name," said

her mother; "where did you get the

idea?"

"Well," replied the child, "on Sunday

school they sang tidally a Chorus Re-

peat—Independence—Kansas Re-

peat."

SUES RAY STATE COMPANY

William F. Norris, of Cambridge,

entered suit against the Ray State

Street Railway Company in the sum-

mer of \$10,000, alleging that on July 13, 1916

he was about to alight from one of the

defendant's cars on the Lexington

road in Billerica he was thrown to the

ground and injured owing to the sud-

den starting of the car.

ROYAL ARCANUM RATES JUMPED ONCE MORE

Messrs. John J. Hogan and A. G. Walsh of this city have returned from Saratoga Springs, where they attended the adjourned session of the supreme council of the Royal Arcanum. The adjourned session was held for the purpose of accepting or rejecting a table of increases in the rates of the organization as submitted at the regular convention, and Mr. Hogan informed the writer this afternoon that the said table had been practically accepted.

The increase of rates will take effect Nov. 1 and will affect what are known as the regular rates and table A, the latter to be but slightly affected, while the highest increase will be among those in the regular rate class. The increase will be according to age and will vary from 25 to 50 per cent. Mr. Hogan said the increase was brought about to conform with what is known as the Mobile bill, which was adopted by 34 states of the union and which calls for a summary of the assets and liabilities of all fraternal societies, to be submitted in 1917, and if an organization cannot show that it is 90 per cent solvent, it will have to go out of business or remedy its condition. He said the Royal Arcanum is not solvent in that sense at present and accordingly the increase. It presses heavily upon the older members.

REVIEW OF POLITICAL EVENTS IN MEXICO

AMERICAN-MEXICAN JOINT COMMISSION BUSY AT NEW LONDON, CONN.

NEW LONDON, Conn., Sept. 12.—The American-Mexican joint commission turned today to a review of the political events in Mexico which resulted in the creation of the present de facto government. At the request of the American members the Mexican commissioners outlined the various developments from the time of the Aguas Calientes convention in 1914 until the present.

The object of the American commissioners in pursuing this line of inquiry was not disclosed. The Aguas Calientes convention was held after the revolutionary armies had entered Mexico City and before the break between Carranza and Villa precipitated new complications. The failure of the revolutionary chiefs who were represented at the convention to find a method acceptable to all under which civil government should supplant military rule led to the war between Carranza and Villa.

The Mexican commissioners said that the call for municipal elections throughout Mexico already had been issued and that a constitutional convention was to be held in the immediate future, to be followed by presidential and congressional elections. The commission did not meet during the afternoon, the six commissioners going together to the naval yacht Mayflower to pay their respects to President Wilson. The visit was entirely informal, due to the fact that the president is here to be at the bedside of his sister, Mrs. Howe, whose death is expected hourly.

BRITISH CASUALTIES 27,591
LONDON, Sept. 12.—For the week ending Sunday, the total casualties of all ranks in all the British armies were 27,591, the war office announced yesterday.

Of these 901 were officers, 210 of whom were killed. There were 5225 men killed out of 28,600 casualties. The total killed was 5465 officers and men.

BARTLETT AND BUTLER

Two Grammar Schools Opened Today With General Medical Inspection—No Sickness Found

The Bartlett grammar school in "Annaland" street opened its doors to 176 pupils this morning, this being about sixty less than the attendance last year but Principal Herbert D. Bixby stated that as is usual many do not report on the opening day owing to the fact that some are away.

The medical examination for infantile paralysis or other diseases was carried on in the same manner as at the high school yesterday and the efficient corps of doctors were kept busy for three hours, but succeeded in examining all before 11:30 o'clock. No suspicious cases were found but several of the pupils were requested to stay away from the sessions until a further examination is made.

The Butler grammar school opened this afternoon and about 890 pupils who are on the list for the medical examination, but at the time of going to press no detailed report as to the condition of the pupils was given out although it is not expected that any will be barred.

SELLING LUNG MOTORS AS REAL LIFE SAVERS

AGENT CALLS ON MAYOR O'DONNELL TO TELL VIRTUES OF LUNG MOTOR

A representative of a life saving device company from Chicago is in town to sell lungmotors to the city, the waterway committee or anyone else who wishes to buy.

The lungmotor is used generally in hospitals throughout the country, says the representative.

The agent called upon Mayor O'Donnell with a formidable list of cities which use the lungmotor and have discarded the pulmotor.

The lungmotor, it is claimed, imitates natural breathing, whereas the pulmotor completely empties the lungs, causing them to collapse completely and thus destroys the normal statistics of the chest and the heart.

SERVED 13 YEARS OF 30 YEARS' SENTENCE

NEW HAMPSHIRE COUNCIL PARDONS JOHN GREEN AND TWO OTHERS

CONCORD, N. H., Sept. 12.—The governor and council today pardoned from state prison John B. Green of Milan, who had served 13 years of a 30-years' sentence for homicide, Cyril Groleau who had served nine years of a 12 years' sentence for killing his son while intoxicated and Leo P. Maloney of Gorham who had served nine months of a sentence of a year for killing a pedestrian while operating an automobile.

BORDEN TO TRY ARCTIC AGAIN

NOME, Alaska, Sept. 12.—John Borden, the wealthy sportsman of Chicago, whose power schooner Great Bear was wrecked on Pinnace Rock, in Bering Sea, on August 14, left for Seattle on the steamship Unadilla.

Borden says that he will build another boat next winter, engage Capt. Louis L. Lane, his partner of this year, as commander, and set out on another Bering Sea and Arctic ocean cruise.

COACH OF BATES COLLEGE

LEWISTON, Me., Sept. 12.—Dr. William Parks, Tufts '15, of Somerville, Mass., has been selected as coach at Bates college, according to an announcement by Capt. Dewey today.

DEMOCRAT IN LEAD

BANGOR, Me., Sept. 12.—With four small towns and two plantations not yet reported, T. Herbert White, democratic candidate for sheriff of Penobscot county leads J. Fred O'Connell, republican nominee, by 237 votes.

There is also the vote from the Texas border to be recorded, but Mr. White's election seems assured.

DEMERS AT SPRINGFIELD

Lowell Hero Who Walked From San Francisco Will Be Here Next Week to Meet His Friends

George Demers, a resident of this city, who has undertaken to walk from San Francisco to Lowell, has reached Springfield, according to a postal received by The Sun today from Mr. Demers. The young man states he is enjoying the best of health and inasmuch as his friends in Springfield are planning a reception for him he will remain in that city at least a couple of days.

Mr. Demers, who is known on the road as "Demers, the Hero Magician," expects to reach Lowell some time next week.

HUGHES AT PLATTSBURG

PLATTSBURG, N. Y., Sept. 12.—Charles E. Hughes spent today, the last day of his presidential campaign trip in Plattsburg. The nominee reached here shortly before 1 p. m. He visited the military training camp and tonight was to speak in a hall here.

Mr. Hughes today made this statement concerning the Maine election. "I am deeply gratified by the result in Maine. We shall go forward with renewed confidence."

NEW HAVEN COST IS HIGHEST

NEW YORK, Sept. 12.—The New Haven railroad has the highest actual cost of operation of any railroad in the United States, according to L. H. Kentfield, general freight agent of the road, in testifying yesterday before the interstate commerce commission at a hearing on the proportional and transportation rates to southern and western points in connection with the steamship lines, which the New Haven purposes to cancel.

Mr. Kentfield said, however, that the rates of the New Haven were reasonable in comparison with the rates of other carriers operating in New York and Pennsylvania. He also testified as to the rates made to meet steamship competition between New York and Boston.

The hearing was adjourned until this morning at 10 o'clock.

BARLOW AERIAL BOMB HITS GROUND, REBOUNDS AND EXPLODES IN THE AIR

LESTER BARLOW and NEW AERIAL BOMB

Lester Barlow, the man shown in the accompanying photograph with his new aerial bomb, has been showing his invention to the United States army ordnance experts. It has been accepted by the government. The bomb is dropped from an aeroplane, hits the ground, rebounds and explodes in the air and is the only bomb known that acts in that manner. Mr. Barlow was chief engineer under Villa when that military leader was still in Carranza's service.

MARGARET WEBB
Of the Team of Conly & Webb at Keith's This Week

AMUSEMENT NOTES

OPERA HOUSE

The Emerson Players, who scored such a tremendous success in the presentation of "On Trial" last week, appeared in "The Sign of the Cross" the first time yesterday and the manner in which they gave the comedy stamps them as one of the best and most versatile stage companies ever showing in this city.

The change from "On Trial" to "Rolling Stones" was a radical one, but the players proved equal to the task, and "The Sign of the Cross" was a comedy that had been playing it all season. Each and every member of the cast appeared to advantage and that their efforts were appreciated was indicated by the applause accorded them.

"Rolling Stones" has an involved plot that becomes clear rather suddenly. An old gentleman named Lewis has left a fortune to be divided between two heirs who are to marry within six months. One of the heirs, Jethro W. Byron, is already married and wondering how he can retain his share. He is living in a boarding house where one Chuck Ryder is a landlady and she meets with Dave Fulton also homeless. They return to the boarding house and are discovered by the landlady's maid, who introduces Fulton as Braden who had been expected at the house but who was thought to have been lost in a train wreck. By some fortunate circumstances Fulton is accepted as Braden and he and Chuck as the general manager of the estate.

Dustin Farum, a handsome young man, is the real Braden, who is trying to marry the second heiress, Norma Stokes to Fulton, goes to work for him. Fulton is discovered of course by Walters, the name Braden has assumed, but is allowed to go on with his imposture. Detectives interfere, however, and the impostors decide to flee. They cannot raise the money and so they land in the clutches of the law as does the real Braden. Matters are finally ironed out, the estate split and all are happily married.

James J. Hayden as "Fulton" is excellent; while Ivan Miller as "Chuck" is well assisted. Ines Fagan has rather a small part in this vehicle but she does it well. Gertrude Shirley as "Emma Braden," the second heiress, is a fine comedienne and the other players also well taken care of. "Rolling Stones" is a play well worth seeing and it will be given every afternoon and evening during the present week.

KEITH'S THEATRE
A program of pleasing vaudeville that promises to win favor and lowell all the way is being offered at the Keith theatre this week. The bill has something for everybody. There is snappy comedy, a charming comedy, breezy sketches with other things that make up a good vaudeville show.

34 CASES OF INFANTILE PARALYSIS REPORTED

TODAY'S CASES BRING TOTAL IN MASSACHUSETTS SINCE SEPT. 1 UP TO 185

BOSTON, Sept. 12.—Thirty-four cases of infantile paralysis, including four in this city, were reported today to the state department of health, making a total of 185 since the first of the month.

INCREASE IN NEW YORK

NEW YORK, Sept. 12.—An increase in the infantile paralysis epidemic was shown in the department of health's bulletin covering the 24 hours ending at 10 a. m. today. There were 55 new cases, as compared with 22 in yesterday's report; and the number of deaths increased by nine to 15 today.

OPENING OF ACADEMY DELAYED

ANDOVER, Sept. 12.—The authorities at Phillips-Andover academy today announced a further postponement of the opening of the academy from Sept. 25 to Oct. 2, as a precautionary measure against an infantile paralysis epidemic. No cases have appeared in Andover but as many of the students who live in infected districts would be unable to report on an earlier opening date, it was thought best to again defer the starting of the new school year.

608 CASES IN CONNECTICUT

HARTFORD, Conn., Sept. 12.—Reports to the state board of health today show a total of 608 cases of infantile paralysis in Connecticut, an increase of eight over yesterday's figures.

FRANK McHILLAN STANTON DEAD

NEW YORK, Sept. 12.—Frank McHillan Stanton, prominent in copper mining circles, died today of intestinal trouble at his home in Whitestone, L. I. Mr. Stanton formerly resided at Houghton, Mich. He was 51 years old.

If you want help at home or in your business, try The Sun "Want" Column.

LITTLE ADS FOR THRIFTY PEOPLE

Designed to Place Before the Public the Merchandise, Craftsmanship and Special Service Offered by Exclusive Concerns That are Not Generally Advertised

A series of "Little Ads" arranged under their respective titles for ready reference, devoted to the interests of everybody. In other words, a sort of Daily Market Meeting Place for Buyers and Sellers, telling of Good Things to Eat, to Wear and to Enjoy, and serving as a Business Barometer and Trade Navigator. These Adlets will place you in touch with live, progressive merchants who have special bargains to offer. They will aid you in economical buying. Will sell and exchange things for you. Will find competent help for you. Will assist you in obtaining a lucrative position. Find buyers for your house, lot, farm, furniture, your store, your lease, your equity. They work day and night with resistless persistence. We want you to read them every day. Make them your Business and Household Companion, because they will help you, and more important than all, you may feel assured these advertisers are worthy of your confidence, or they would not be permitted to use the columns of The Sun. On this page will also be found Probate and other Legal notices.

And furnish the wall paper. Dealer in wall paper at very low prices. Also paperhanging, whitewashing and painting. Estimates given on large or small jobs. All work guaranteed.

MAX GOLDSTEIN

155 Chelmsford St. Tel. 5272

cast a total vote of less than 2500 two years ago.

Latest Returns

Returns from 453 out of the 522 cities, towns and plantations and from the soldiers at Laredo gave for governor: Miliken 50,902, Curtis 67,335. The 23 missing towns two years ago cast 471 republican, 372 democratic and 228 progressive votes.

Returns from 450 of the 522 towns and from the militiamen for United States senators gave Hale 78,841, Fernald 80,191, Johnson 68,969, Sills 67,616. The 22 missing towns in 1914 gave the republican candidate for governor 745, democrat 556 and progressive 261.

With seven contests in the senate and eight in the house not reported, the democrats had only three members of the upper branch and 46 in the lower branch of the legislature. On joint ballots the republicans will have at least 119 votes and the democrats 48.

Somerset county elected a republican sheriff and county attorney.

Largest Vote on Record
The total vote, allowing for the minor parties, was about 150,000, the largest on record.

Aside from the Governorship, the most strenuous contests were those between Col. Hale and Senator Johnson and between Wallace H. White, Jr. and Congressman McGillicuddy of the 2d district.

The democrats did not expect to elect Dean Sills to the senate or any of the other three congressmen, unless there should be a much greater landslide than they dared hope for.

The Hale-Johnson contest was a matter of personalities, not of national issues, and was exceedingly bitter.

That Col. Hale's victory would be freely cut at the polls was predicted by his enemies and feared by his friends. Senator Johnson is admired by those who differ with him politically.

But while Hale's plurality is less than in 1914, it is not so small as the republican feels deeply chagrined. Ex-Gov. Fernald, running against a college dean almost unknown politically, gets only 2000 larger plurality.

Went to Polls Early
One feature of the election was the promptness with which the voters went to the polls. Many men who usually put off voting until late in the afternoon voted before 10 o'clock.

A cynical explanation made by one ward worker was that if a man delays too long he too often finds that some one else has voted his name. This year they are taking fewer chances of that sort.

Returns were slow in beginning to come in. Two years ago the first town was heard from at 3.15 p. m.; last night the first to report was Caledonia Plantation, an island 20 miles off the coast, which until this year has not been heard from until some one called over with the returns a couple of days later.

Yesterday an amateur wireless outfit sent the returns at 5.07 p. m. for Miliken and 6 for Curtis, the corresponding vote for four years ago being 7 and 8. Two years ago no one took the trouble to send the returns, even to the secretary of state.

Hurricane fears had no effect. This island is 15 miles off Rockland and was once a flourishing town of 200 voters, but its only industry was granite quarrying and contracts have gone elsewhere. Two years ago it had 15 voters. Now there are only three voters left on the island and there is no town government.

RECORD VOTE
Largest Vote in History of State of Maine Cast in Yesterday's State Election

PORTLAND, Me., Sept. 12.—The largest vote in the history of the state was cast at the state election yesterday.

The total vote will approximate 152,000. These figures have not been approached since 1858, the year that democratic and greenback parties fused, when the total was 147,500. In 1858 the total was 55,750. In the last presidential

Investigate my methods of treatment. Write REG. MAIL, Lowell office 87 Central st., Houghton, Mass. 2. Consultation Examination Advice FREE.

that year and two years ago it fell below 100,000.

The combined vote of the republicans and democrats this year was close to 150,000, and the socialist and prohibition totals are estimated at 2500.

The receipt today of the vote from the border and a few isolated towns increased the plurality of Carl E. Miliken for governor over Gov. Oakley E. Curtis, democrat, from the indicated figures of 15,000 last night to 22,500.

Indicated pluralities for the other republican candidates were confirmed by a revision of the vote. The republicans will have solid delegations in both branches of congress and will easily control both houses of the state legislature.

The report from Laredo, Tex., said that the members of the second battalion of the Second Maine Infantry made a two days' overland march of 60 miles from Zapata county to exercise the franchise. The vote of the soldiers followed about the percentage of the vote cast at home.

The country vote, as usual, controlled the election. The cities gave a total plurality of 15,000 last night, but against a total of 6000 received by him two years ago.

Maine by a vote of about 1 to 1 gave popular approval of the state law limiting the employment of women and children to 54 hours a week.

DEMOCRATIC VICTORY
Secretary Daniels' Comment on the Election in Maine Yesterday—Result Democratic Victory

WASHINGTON, Sept. 12.—Commenting upon the Maine election today, Secretary Daniels claimed the result was a democratic victory and that when national issues were in consideration the progressives voted with the democrats.

"This is shown," said the secretary, "by the fact that Miliken, the republican candidate for governor, got 50,902 votes and the two republicans got 77,660 votes and the two republicans got 77,660 votes. There is nothing discouraging in the result, if the democrats had carried Maine that would have ended the entire campaign."

"Maine ought to have about 5000 republican majority, instead we carried down to 1500. The result is a democratic victory."

Mr. Daniels declared it was to be expected in Maine the progressives would flock to the republicans. He predicted that they would not do so in New York, Illinois and Ohio, but would come in greater proportion to the democratic party.

Carl E. Miliken, a Young Armistock Republican, and Always a Vote Getter

Carl E. Miliken, the young Armistock republican, has always been known as a vote-getter. He is 32 years old, and has been interested in politics since he was a boy. He is a member of the Republican National Committee. He is a lawyer, and has been a member of the Maine legislature in 1909, 1910, 1911 and 1912. He was president of the senate. He is married and has five children and one son.

A La Jolla Donnelly
Ex-Gov. Bert M. Fernald is known for his untiring good nature and for his ability and willingness to sin. He was elected to the Maine legislature in 1897 and at that time if any one had suggested that he was to become governor the statement would have been accepted as a joke.

He served several terms in the lower branch, and in 1901 was elected to the senate. That year he presented a bill to create a state university for the United States senate, and delivered a memorable address. In 1905 he was elected governor, and two years later was defeated by Hon. Frederick W. Plafie, the first democratic governor in the present generation.

Col. Hale Succeeds Father
Col. Frederick Hale of Portland has succeeded his father, Hon. Eugene Hale, who retired from the United States senate after 30 years of service. He is a lawyer, a graduate of Harvard college in 1886, has been connected with the republican party in his state, district, county and city.

While he is a good speaker he does not claim to be eloquent, offering his services to the national republican committee, he asked to be sent where he would do the party the least harm. He was elected to the Maine legislature in 1912, and served two years.

In 1912 he and the Roosevelt forces defeated the election of Roosevelt delegates to the first Chicago convention, but declined to hold the nomination for the United States senate, and he was elected a member of the republican national committee. He is 42 years of age.

His father, Frank H. Hale, has represented his district at Washington since 1907, what he was chosen to fill the unexpired term of the late Congressman Llewellyn Powers. He is a member of the Maine legislature.

He graduated from Bates college in 1894.

He is a member of the Maine legislature.

REPUBLICAN VICTORY IN MAINE ELECTION

Elect Governor, Two U. S. Senators and Four Congressmen—Milliken's Plurality 13,607

The Vote of Maine

The revised vote for governor, United States senators and congressmen follows:

For Governor	
MILLIKEN, R.	80,902
CURTIS, D.	67,395
For United States Senators	
HALE, R.	78,854
FERNALD, R.	80,191
JOHNSON, D.	68,969
SILLS, D.	67,516
For Congressman—First District	
GOODALL, R.	20,350
STEVENS, D.	16,799
For Congressman—Second District	
WHITE, R.	19,157
McGILLICUDDY, D.	18,770
For Congressman—Third District	
PETERS, R.	21,820
BUNKER, D.	18,277
For Congressman—Fourth District	
HERSEY, R.	16,556
PIERCE, D.	12,337
The Vote for Governor in 1914	
HAINES, R.	19,169
CURTIS, D.	22,057
GARDNER, P.	5,509

PORTLAND, Me., Sept. 12.—The thoroughness of the republican victory at the polls yesterday was emphasized as the returns from isolated towns and plantations struggled in today.

Milliken's Plurality 13,607

Revised figures place the plurality of Governor-elect Carl E. Milliken over Governor Oakes C. Curtis at 13,607. Returns from the harder show that the members of the Second Maine Infantry cast a total vote of 470, of which Milliken received 308.

The pluralities for the republicans who will send a solid delegation to congress were practically unchanged from the figures of last night, as were the pluralities won by Frederick Hale and ex-Gov. Bert M. Fernald, who were elected to the United States senate.

G. O. P. Control Both Houses

The republicans, who have held a majority in the state senate will now control both houses by a good working majority. A study of the returns for the legislature show that Franklin county completely reversed its representation in both houses, returning all republicans to replace the socialists.

URGES LAWS TO AID MASS. SOLDIERS AND DEPENDENTS

Gov. McCall Addresses Special Session of Legislature--Wants Troops at the Border to Vote and Get More Pay--Reapportionment of Suffolk County

BOSTON, Sept. 12.—Three specific matters are to be settled by the legislature called in special session today by Gov. McCall. The most imperative of these, in view of the near approach of the state primaries and election, is the adoption of a new legislative reapportionment for Suffolk county to replace that arranged by a legislative commission and recently declared by the supreme court to be invalid. A new reapportionment drawn up by the commission was ready for the consideration of the legislature.

The other measures to be considered are the devising of a method whereby Massachusetts National Guardsmen on the border may vote in the November election and the providing of aid for dependents of the guardsmen.

In his address to the joint convention at the opening of the session, Gov. McCall recommended the passage of a law under which the votes of the legal voters among the 7000

National Guardsmen from Massachusetts on the Mexican border would be taken and counted for presidential elections. United States senator and representatives in congress, "I recommend," he continued, "a suitable increase in the compensation of the soldiers with a further provision for those dependent upon them and that due authorization be given to cities and towns to raise money by taxation or otherwise and to expend the same for such purpose. I recommend the appointment of an agent to assist dependent families to secure what is their due from an apportionment recently made by the national government."

After reviewing the decision of the supreme court that the reapportionment of Suffolk county into representative districts was a nullity, Gov. McCall said: "It would seem that there were no representative districts in the county of Suffolk at the time fixed for filing nomination pa-

DEMANDS UPON CHINA BY JAPAN EXPLAINED

WASHINGTON, Sept. 12.—Ambassador Guthrie at Tokio cabled the state department today that the Japanese foreign minister had informed him there was nothing in Japan's demands upon China in connection with the Cheng-Chinton incident that infringed the sovereignty of China or impaired the Root-Takahira agreement.

In making the report public the department revealed the fact that the ambassador had been instructed to advise the foreign office that the report of the demands published in this country "had greatly disturbed the American government which trusted that it was not true."

LOOKS GOOD FOR WILSON

CHICAGO, Sept. 12.—Senator Thomas J. Walsh, manager of the western democratic campaign headquarters, said today: "The returns from Maine presage the election of Woodrow Wilson in November."

TRAIN STRUCK A SPREADING RAIL, 20 KILLED

EL PASO, Texas, Sept. 12.—Twenty-two persons were killed when a northbound passenger train on the National railway of Mexico struck a spreading rail near Ortiz, Chihuahua, about 75 miles south of Chihuahua City, last Sunday, according to reports received in Juarez today.

GERMANS SEIZE \$150,000,000

THE HAGUE, Netherlands, Sept. 12.—The Belgian Dagblad announces that the German authorities have seized \$150,000,000 (\$150,000,000) which had been placed in the coffers of the suspension of the moratorium.

The newspaper says the Germans have offered to pay 5 per cent. interest and return the money two years after the close of the war.

BILL CARRIGAN OF RED SOX TO "RESIGN"

BOSTON, Sept. 12.—President J. J. Lannin of the Boston American league club said today that Manager William Carrigan had informed him recently that he thought this would be his last year in major league baseball. Mr. Lannin said that Carrigan stated he would resign at the end of the present season.

"I believe he will stay, but of course, Carrigan will do as he thinks best," President Lannin added when asked whether any formal resignation had been offered. He said he had done nothing toward the selection of a successor to Manager Carrigan, but the name of Patrick Donovan of the Buffalo Internationals and Heine Wagner, until recently manager of the Hartford team of the Eastern league was mentioned in this connection.

N. Y. CAR CRASHED INTO JITNEYS--TWO KILLED

Serious Accident in Trolley Strike-- "Green" Motorman Lost Control of Car--13 Severely Injured--Night of Rioting--Strikebreakers Fired Upon

NEW YORK, Sept. 12.—The first serious accident of the street railway strike in this city, took place early today when a trolley car of the Union Railway Co., in the Bronx, operated by a "green" motorman, got beyond control as it started down a steep grade and, jumping the track at a curve, crashed into two jitney buses, killing two persons and severely injuring 13 others. Four of the injured may die. The car crew was placed under arrest, pending an investigation.

NIGHT OF RIOTING

After a night of intermittent rioting motormen on the Sixth and Ninth avenues elevated roads reported to the police that they had been fired upon by strikers from roof tops. Third avenue elevated trains were repeatedly bombarded with bricks and stones hurled from nearby buildings. One passenger, a woman, was struck on the head by a missile and seriously injured. Five arrests were made.

Vote on Sympathetic Strike

John T. Riley, chairman of the International Longshoremen's union, declared that the members of his organization numbering between 500 and 1,000 are voting on the advisability of declaring a sympathy strike. The decision will be announced later in the day.

Crews of Car Sat Upon

Violence continued as the day went on. Strikers and sympathizers looted surface cars and sat upon the crews of strikebreakers when the latter refused to desert their posts.

Strikebreakers Appeal to Officials

Nearly 100 strikebreakers, most of them from Chicago and Boston, appeared to Mayor Mitchell and the public service commission to assist them in achieving their "freedom." They claimed that none of the promises made when they were engaged had been kept, that they were virtually prisoners in car barns and that wages due them were not forthcoming.

Premised Police Protection

The mayor promised them police protection in their efforts to collect wages.

MUNICIPAL COUNCIL HELD SESSION TODAY

Harvey B. Greene Objects to Bill Over 70 Years Old -- Protest Against Labor Day Prize

Chiefly routine business was transacted at the meeting of the municipal council held this morning. The meeting was presided over by Mayor O'Donnell and all members were present with the exception of Commissioner Putnam, who is enjoying a week's vacation. Harvey B. Greene remonstrated against sewer assessment bill 20 to 70 years old and a representative of the Machinists objected to Labor day award for largest number of men.

Charles Sullivan was given a hearing on his petition to maintain a garage at 270 Wilder street. There was no remonstrant and the petition was referred.

The U. S. Cartridge Co. was given a hearing on its petition for permission to keep, store and manufacture explosives known as primers in its Lawrence street plant. Miss Ita Margaret Hutchinson O'Creley appeared as a remonstrant, but when she was informed that the petition was for the Lawrence street plant, she withdrew her objections. Later, however, she was given an opportunity to remonstrate, for a similar petition for the South Lowell plant. Miss O'Creley objected this time on the grounds that the South Lowell explosion some 12 years ago had been the cause of a large depreciation in the property in the district, and inasmuch as she

VARNUM AVENUE TRACKS

Bay State Company Ordered to Extend Their Line as Far as Totman Street

Special to The Sun

STATE HOUSE, Boston, Sept. 12.—An order will be issued by the public service commission this afternoon directing the Bay State Street railway to extend its tracks along Varnum avenue as far as Totman street. This action is taken as a result of the petitions filed a year ago by Representatives Achta and Jewett, who asked that the extension be made to Fowler road. The commission declined, however, and ordered the company to extend its tracks the whole length of the avenue.

22 ARE INDICTED ON CHARGE OF ARSON

SECRET INDICTMENTS AS RESULT OF EXTENDED GRAND JURY INVESTIGATION

BOSTON, Sept. 12.—Twenty-two secret indictments, charging arson, were returned today as a result of an extended grand jury investigation into the activities of a so-called "arson trust" in this city, including today's record, 22 persons have been indicted since the investigation was started some months ago. It is alleged that as tenants they set fire to dwellings in order to obtain insurance on household effects.

BLAZE DESTROYED PLANT OF INTERNATIONAL WASTE COMPANY

BOSTON, Sept. 12.—Fire today destroyed the plant of the International Waste Co., in the South Boston district, the damage being estimated at upwards of \$50,000. Several other structures were threatened and as a matter of precaution, 15 girls employed in a shoe factory nearby were ordered to leave the building.

ENEMY OF GERMS

Disease germs are ever present in dirt and are tracked into the home of the most careful housewife.

Here they find a ready refuge in rugs and carpets and lurk a hidden menace to the health of every member of the family.

Sweeping only serves to distribute them about the house.

The Electric Vacuum Cleaner safely shuts them up in a bag and they can be disposed of by emptying into the furnace or boiler.

RHODE ISLAND TROOPER DEAD AT EL PASO

PRIVATE FULLER DIED AS RESULT OF BEING KICKED BY A HORSE ON SUNDAY AFTERNOON

EL PASO, Tex., Sept. 12.—Private Stanfield Fuller, 25 years old, member of M Troop of the Rhode Island Cavalry, who was killed at the Port Isabel hospital yesterday morning as the result of being kicked by a horse Sunday afternoon.

At the time the accident occurred Fuller was leading three horses to water. The animals were being led for some miles on a road. One of them turned and kicked Fuller in the chest. Fuller, who tried to hold the horse, got in between them and one of the animals kicked him in the abdomen. The force of the blow striking right on the liver place.

Fuller was the son of Dr. S. A. Fuller of Abington. He was married and resided on Feb. 12, 1916. When M Troop was organized last May, young Fuller was transferred with several others to that troop.

Fuller was a member of the company and was employed at the American plant of the General Electric company. His death is the first among New England troops since the National Guard reached the border.

THE MEXICAN-AMERICAN JOINT COMMISSION

MEXICANS CALL ON PRESIDENT WILSON AT NEW LONDON—REGRET SISTER'S ILLNESS

NEW LONDON, Conn., Sept. 12.—The Mexican members of the Mexican-American joint commission that is studying means for restoring order in Mexico will be given an opportunity today to pay their respects to President Wilson, who came here yesterday because of the illness of his sister, Mrs. A. E. Howe. The call of the commission members on the president was arranged after they had suggested it in a message of sympathy transmitted by Secretary Lane. In their message the commissioners said that before leaving the United States they hoped to have the opportunity of paying their respects in person to the president. A meeting was to take place on the Mayflower, anchored in the river just in front of the hotel where the commission is in session.

Further discussion of the statements made by Commissioner Paul relative to the state of the railways in Mexico features the forenoon session of the commission. The information of the commission of the American commissioners containing in a great part that offered by the Mexicans. It was regarded as probable that today's meeting would be brief because of the visit to the Mayflower.

Stomach Relieved Digestion Aided

MR. CHAS. A. WARNER
"I want to express my thanks for the good Duffy's Pure Malt Whiskey has done me. My attending physician told me I could not live, but he said I had consumption of the stomach. I read your advertisement in the newspaper, bought a bottle, took it, and it has done me so much good I cannot praise Duffy's enough. I have taken it for three years and keep it in the house all the time. I would not be without Duffy's I am 55 years of age."—Mr. Chas. A. Warner, Cambridgeport, Vt.

Duffy's PURE MALT WHISKEY

is recommended in tablespoon doses in equal amounts of water or milk before meals and on retiring as a food of digestion and assimilation of food.

"Get Duffy's and Keep Well!"
At most drug stores, grocers and dealers. \$1.00 a bottle. If they don't supply you, write to Duffy's Pure Malt Whiskey Co., Rochester, N. Y.

The Balance of Our Stock of Hammocks

Is now for sale at cost. You'll make a profit if you buy for another season.

MEAT EXPORTS TREBLED DURING THE WAR

EUROPEAN CONFLICT IS ENCOURAGING SERIOUSLY UPON MEAT SUPPLY

NEW YORK, Sept. 12.—The European war is encroaching seriously upon the meat supply of this country, according to figures made public yesterday in the official trade department of the National City bank. Despite marked decrease in the number of food animals in the United States, exports of meat have trebled since the beginning of the war, and of beef alone exports are greater by tenfold.

The compilation shows that exports of meats of all kinds, which aggregated 455,000,000 pounds in the fiscal year 1914, prior to the war, mounted to 855,000,000 in 1915 and 1,239,000,000 pounds in 1916.

The quantity of fresh beef exported jumped from 5,400,000 pounds in 1914 to 17,000,000 in 1915 and 23,100,000 in 1916.

HYSTERICAL IN COURT
Woman Creates Scene at Dedham When Husband is Sentenced to Five to Eight Years

BOSTON, Sept. 12.—Mrs. Fred Chapman of Easton became hysterical yesterday in the superior court at Dedham, when Judge Raymond imposed a sentence of from five to eight years on her husband, Fred Chapman, charged with assault with intent to rob John B. Anderson in Stoughton on Feb. 10, 1915.

Chapman eluded the police for many months, but was recently arrested in Maine. Chester Styren, his companion in the holdup, is now serving a one-year sentence for the crime.

MISS BOUTELLE'S REPORT
Tells of Y.W.C.A. Work in Canton—Says They Are Under Martial Law at Canton

Miss Harriett L. Boutelle, former secretary of the local Y.W.C.A., who is now doing work in Canton, China, has sent to this city a copy of her quarterly report, which is in part as follows:

As far as my experience goes, every typical feature of the Y.W.C.A. in America has some counterpart in China. From the board members who do not like finance to the girl who before she joins the association asks how many social affairs there are in a month. This second fourth of the year in Canton has been so quiet and so unusual as to seem to me, unlike anything one would ever experience in America, but it reminded me forcefully of a time when a certain New England association was guaranteed on account of scarlet fever. The secretaries were free to go in and out, but no meetings, classes or clubs were allowed. There was a certain state about it, but the board members, the whole staff enjoyed a real rest and the whole association bounded forward with renewed vigor after the ban was lifted. Here in Canton this second quarter has been badly cut into, and we seem to have the fever of a revolution. For six months or so the city was under martial law, soldiers who frequently robbed any prosperous-looking Chinese were stationed along the Bund and throughout the city. Shows were kept open but a crack, with iron gates, ready to be thrown together at a moment's notice. Shows were held occasionally, causing all within hearing to rush to safety. The very air was tense with the excitement of what might happen. Naturally no women ventured out during times like these, and the money that is needed for the work of the Y.W.C.A. was not forthcoming. Several board members were out of town, so that not even committee meetings or planning of any sort was possible. The very uncertainty as to who and where meeting might begin made even calling impossible and there was always the likelihood that the member sought for herself and her family to the foreign territory of Mexico or Hong Kong. It was an unfortunate state of affairs, though it had its amusing side.

Gradually confidence has been restored and the last part of the year has been spent in gathering up the threads. The vesper started out with an attendance of over 100 and has averaged that number ever since. About half the regular congregations in Canton as was plainly shown when all of them failed to appear on the feast day, preceding Dragon Boat festival, several hundred people were in the church. Several board members were out of town, so that not even committee meetings or planning of any sort was possible. The very uncertainty as to who and where meeting might begin made even calling impossible and there was always the likelihood that the member sought for herself and her family to the foreign territory of Mexico or Hong Kong. It was an unfortunate state of affairs, though it had its amusing side.

GRADUALLY CONFIDENCE HAS BEEN RESTORED AND THE LAST PART OF THE YEAR HAS BEEN SPENT IN GATHERING UP THE THREADS.

THE FOLLOWING LIST OF MEMBERS WAS RECEIVED FROM THE Y.W.C.A. OF CANTON, CHINA, SEPTEMBER 12, 1916.

Miss A. E. Gosselin, Chairman, Little Rock, Ark. (President of the Y.W.C.A. of the United States).

Miss A. E. Gosselin, Chairman, Little Rock, Ark. (President of the Y.W.C.A. of the United States).

Miss A. E. Gosselin, Chairman, Little Rock, Ark. (President of the Y.W.C.A. of the United States).

FOR INFANTILE PARALYSIS

Physician Would Bar Children From Picture Shows Until the Danger is Over

"Should we have a few more cases of infantile paralysis," said a local physician, "it may be necessary to close the picture houses to children. A couple of weeks ago two of the theaters had shows to which children were not admitted, lest they should catch something, I suppose."

"I believe it would be a good thing," continued the doctor, "to bar children from all the picture theatres until such times as infantile paralysis disappears. The disease," he said, "seems to be making its way along the eastern coast and we have such an extreme step may not be necessary."

"It behooves all residents to keep clean and strong, and to ventilate their homes thoroughly by day and by night."

"The cleaning campaign of the city should be continued. No sanitary precaution should be omitted for although it is claimed that cleanliness is not a protection against infantile paralysis, it is the fact remains that nearly all contagious diseases have their origin in children are most susceptible to its attacks. Very little is known as to whether the disease is contagious or how it is spread. The fact that it is spreading is the condition that must be met with all the reasonable precautionary measures such as isolation, quarantine and asymptomatic treatment in order to battle the malady as best we can at every point."

"The disinfection of schools, theatres and churches may come as a step towards fighting the disease should we have any considerable number of cases, but we have not reached that stage as yet and we have such an extreme step may not be necessary."

"The investigations thus far made by medical authorities do not cast much light upon the origin of the disease and quite as likely upon its proper treatment or what will effect a cure. It is a mistake to suppose that it is confined to infants, although young children are most susceptible to its attacks. Very little is known as to whether the disease is contagious or how it is spread. The fact that it is spreading is the condition that must be met with all the reasonable precautionary measures such as isolation, quarantine and asymptomatic treatment in order to battle the malady as best we can at every point."

Very little is known as to whether the disease is contagious or how it is spread. The fact that it is spreading is the condition that must be met with all the reasonable precautionary measures such as isolation, quarantine and asymptomatic treatment in order to battle the malady as best we can at every point."

"The disinfection of schools, theatres and churches may come as a step towards fighting the disease should we have any considerable number of cases, but we have not reached that stage as yet and we have such an extreme step may not be necessary."

"The investigations thus far made by medical authorities do not cast much light upon the origin of the disease and quite as likely upon its proper treatment or what will effect a cure. It is a mistake to suppose that it is confined to infants, although young children are most susceptible to its attacks. Very little is known as to whether the disease is contagious or how it is spread. The fact that it is spreading is the condition that must be met with all the reasonable precautionary measures such as isolation, quarantine and asymptomatic treatment in order to battle the malady as best we can at every point."

CONSCRIPTION LAW IS PLANNED IN CANADA

MEMBER OF CABINET HINTS AT ACTION BY PARLIAMENT—HEAVY LOSSES ON SOMME FRONT

SASKATOON, Sask., Sept. 12.—Sir George E. Foster, Canadian minister of trade and commerce, speaking of the war at a meeting here yesterday, hinted at the passage of compulsory recruiting law.

"If more men are needed, and will not voluntarily go," he added, "the lesson of Great Britain will have to be learned in Canada."

OTTAWA, Sept. 12.—The passing of new conscription bills by the government yesterday brought the news to the Canadian public that the Dominion troops have again started in a big battle, this time on the home front.

The lists indicate that the losses will run up to several hundred in a serious engagement which took place last Friday.

SEARCH FOR CHARLES W. COOK, AGED 32, MISSING SINCE AUGUST 12

BOSTON, Sept. 12.—The mysterious disappearance from this city on August 12 of Charles W. Cook, an aged real estate owner, who left a note in which he stated that he would not return, led today to a widespread police search. Cook, who lived at a hotel, is said to have had no relatives here, and no alarm over his absence was expressed until a letter addressed to Dr. Arthur P. Perry, one of the executors of his will, was found yesterday on Cook's desk. Dr. Perry told the police today that Cook had written that he was "about to take the boat for Belfast, Me., never to return" and this, the executor said, led him to fear that Cook had jumped from the steamer.

In former years, Cook had visited Bar Harbor and Southwest Harbor, Me., where he was well known, and the authorities in those places were asked to take up the search.

Cook was described by Dr. Perry as a man who had no close friends, having lived for many years in retirement. He was 32 years of age. According to Dr. Perry, there was apparently no person who he should have attempted suicide, as he was wealthy and in excellent health.

MASONIC CELEBRATION
Mount Herch Royal Arch Chapter Celebrated Its 50th Anniversary Last Night

The members of Mount Herch Royal Arch Chapter of Masons celebrated the 50th anniversary of the chapter in Masonic hall in Merrimack street last night. There were about 200 present and a banquet which was held during the early part of the evening was followed by an interesting program. George C. Green of Washington, D. C., grand high priest, was the principal speaker and addresses were also made by Arthur D. Prince of Lowell, one of the national officers, and others. During the banquet and after-dinner exercises, music was furnished by the Merrimack orchestra.

MAN STABBED TO DEATH ON EAST BOSTON WHARF

NACOCHEE FIREMAN KILLED—SHIPMATE ARRESTED—JOHN GILSTRAP ACCUSED OF MURDER
BOSTON, Sept. 12.—Albert Newton, 35, married, a fireman on the freight and passenger steamer Nacoochee, was stabbed in the heart in a quarrel at the Atlantic Works wharf, East Boston, at 6:20 o'clock last evening and died at 8 o'clock at the East Boston Relief hospital.

John Gilstrap, 22, married, also a fireman on the Nacoochee, was arrested at the Orient Heights station of the Boston, Revere Beach & Lynn railroad, in East Boston, charged with murder. He was arraigned in the East Boston district court this morning.

The two men had been drinking during the afternoon, their fellow seamen stated last night, and became involved in a forcible argument over money. Gilstrap maintaining that Newton owed him \$1. The argument was adjourned to the wharf.

In the excitement following the stabbing Gilstrap made his escape. Lieut. Allen, in charge of the East Boston station, was notified and he sent the police auto to take Newton to the relief station.

With but little to work on other than that Gilstrap had a noticeable mark on one of his eyes Lieut. Allen, through the police signal system, soon had every patrolman in East Boston on the watch for the accused man. A detail covered the wharves and others were sent to the ferries.

Sgt. Louis Lutz, Special Officer

Route. Patrolman Richard Austin of the Boston, Revere Beach & Lynn railroad had been assigned to the Orient Heights section and just before 8 o'clock they noticed a colored man at the depot, making inquiries as to how to get to New York. The detail detained him.

He proved to be Gilstrap and at the station he was identified by other members of the crew as the man who had stabbed Newton. Gilstrap had made a complete change in clothing between the time of the stabbing and his capture.

The men had been good friends until the quarrel. Gilstrap's address is 15 Lombard street, in Savannah, and Newton lived at 423 Miner street, in the same city.

The Nacoochee, Capt. J. H. Dizer, pines between Savannah and this city. She arrived here last Friday and after her cargo was discharged she went to the Atlantic Works wharf for repairs to her boilers.

SPECTACULAR DROP OF AEROPLANE AT SALEM

PLANE CAME DOWN 2000 FEET IN SPIRAL GLIDE—TWO OCCUPANTS ESCAPED UNHARMED
MARRIHEAD, Sept. 12.—What appeared at the time to be an airplane disaster of the first magnitude occurred over Salem harbor just opposite the Willows late yesterday afternoon, when James McGrath, pilot, and his pupil, George H. Peering of Boston, apparently plunged headlong from a height of 2000 feet.

Stories that an aeroplane had "exploded" in the air over Salem bay and that two men had been killed spread like wildfire and caused much excitement in this town and in Salem. In response to a call the Salem police and balance was dispatched to Winter Island to bring back the "bodies."

Neither pilot nor passenger, however, was hurt, and the aeroplane was only slightly damaged.

McGrath, who is the aviator of George H. and Norman Cabot, had been taking Mr. Peering on an instruction flight, and had turned the machine down after reaching a height of 2000 feet at the same time cutting off the power. Peering took over the controls and began a steep spiral glide which appeared, to observers, to be almost a straight drop.

At an altitude of 100 feet the craft was straightened out, but owing to a confusion in signals between pilot and pupil the power was not turned on quickly enough and the machine stalled and sank to the surface with one wing slightly lower than the other. As a result the craft struck heavily and the wing float and central position were crushed.

Neither of the occupants, however, was thrown out, and they were rescued by life boats from the Eastern Yacht club. The machine, which is the property of Mr. Peering and Norman Cabot, was towed back to the Burgess company plant here for repairs.

The aeroplane, built by the Burgess

company, is of the Dunne self-balancing type, and both Mr. Peering and McGrath say that this alone averted disaster.

The regular meeting of Gen. Adolph Ames camp, United Spanish War Veterans was held in the council chamber at city hall last night. There was a large attendance and considerable business was transacted. One new member was mustered in and Adjutant E. W. Chandler, Officer of the Day, D. J. Crowley and Past Commander Gilbert W. Hunt were appointed a committee to make arrangements for a proper celebration of Columbus Day. Interesting remarks were made by Senior Vice Commander Ralph W. Croston of Dover, Wolcott camp 23, of Boston, a former member of Gen. McGrath's camp, and by Capt. G. H. Grady camp 2, of East Boston, who were much enjoyed.

Loyal Integrity lodge, 889, L. O. O. F., held its regular meeting at city hall last evening. N. G. Harlow, Meritt president. Several propositions for membership were received and one new member was elected by ballot. Two new members were taken into the lodge, C. John Thomas, G. M. Lee Mack and Mr. D. M. Arthur. Mr. Thomas and Mr. James McArdle acting as officers in the ceremony.

ROGERS BEFORE GRAND JURY
Cambridge Appointee Who Recently Charged Bribe Sought by City Council
BOSTON, Sept. 12.—Charles M. Rogers, recently nominated by Mayor Rockwood for auditor, but turned down by the Cambridge city council, and who subsequently charged in a letter to a Cambridge newspaper that he had been approached while his name was before the council by one of the members with a proposition to turn over to the member \$100, with which amount the member believed he could obtain the votes necessary for confirmation, appeared before the Middlesex grand jury at East Cambridge yesterday.

He was in the jury room about half an hour and it is understood will continue his story Friday, to which date the jury took adjournment.

BRAVES SCORE WIN OVER THE LEADERS

The Braves came back. After the worst week in their history under the reign of Boss Steinfeld they showed the old fighting pop that was manifested a few weeks ago in their battle for a place at the top yesterday and defeated the Brooklyn leaders by the score of 5 to 1. As Philadelphia also lost, Boston made an important gain in the pennant race.

Ragan not only twirled a masterly game and held the batters to five scattered hits but also battered for 750. With the Rabbit out of the game, with broken bats and other injuries, Ragan was forced to work in front of a poorly patched up infield. Egan at shortstop contributed three errors. Fitzpatrick at second worked hard but is far from being a star in his present condition at least.

But despite the lack of snappy fielding, the bats of Gowdy, Ragan, Sudgrass and a couple of hits by the erring Egan as well as a pinch hit by Blackburn succeeded in bringing in more than enough runs to win the game.

Rube Marquand opposed the Braves and his southpaw delivery was by no means puzzling to the aforementioned Boston sluggers.

Red Sox Also Won

But in Washington the Red Sox also had a victorious afternoon. Dutch Leonard was on the mound, with Carrigan behind the bat. The champions were lucky and received all the breaks of the game. Leonard and Shorten drove in the four runs tallied by the Red Sox and the fielding of McNally, Scott and Janvin featured.

GAMES TOMORROW

American League

YESTERDAY'S RESULTS

American League	National League	Eastern League
Boston 4, Washington 2.	Roston 5, Brooklyn 1.	Lynn 5, Springfield 0 (1st game).
Detroit 5, Cleveland 1.	New York 5, Philadelphia 4.	Lynn 5, Springfield 0 (2nd game).
Chicago 5, St. Louis 3.		New London 5, Hartford 1.

AMATEUR BASEBALL

The Universals Seconds would like to hear from the manager of the Barry Shoe team for a game to be played Saturday. Manager Riley, who has taken the place of Manager Keefe, would like to meet the manager of Barry Shoe on the North common any night between 6:30 and 7:30.

CHARLIE WHITE LOSES CHANCE FOR TITLE

JOHNNY KILBANE AND KID WILLIAMS REMAIN SUPREME IN THEIR RESPECTIVE CLASSES

Although there is a general belief on the part of boxing patrons that Freddy Welsh was the recipient of favoritism on the part of Referee Roche in the Labor day bout in Colorado Springs, still it is pointed out by those who have studied the matter that Charlie White has now faced Welsh for fifty rounds—one twenty and three tens—and that the supposed knockout has never put a glove on White with disabling effect. Therefore White has been depending on points to win his battles with the champion, and this is a feat that better boxers than White have utterly failed to accomplish.

Like many other heavy hitters, White does not box well enough to have a chance with a foxy ringster like Welsh.

White can topple over slow, plodding boys to permit the Chicagoan to set for his left hook, but when it comes to fast class ring generals like Welsh the left hook expert is helpless. White has missed his last chance to bring home the championship bacon, and there is small chance of his getting another bout with the present title holder.

Kilbane, by his summary defeat of Cheney, removed the last opponent of class from the featherweight division, and the Clevelander will have to resume his regular occupation of toying with easy marks or else to go into the lightweight class.

Many good judges are of the opinion that Kilbane could defeat Welsh, but there would be great difficulties in agreeing on the terms of the match.

The manner in which Kid Williams, the bantam champion, has settled down to business is a distinct surprise to those who thought the Baltimorean was on the down grade. He has now trounced half a dozen good bantams and is ready for all comers.

Incidentally, Johnny Ertle hooked up with the first classy boy he has met since he first came east and got a drubbing. Benny Kaufman was his opponent, and while Benny is not a champion by any means, he conquered Ertle thoroughly.

FOOTBALL PRACTICE

College Teams Getting Down to Real Hard Work—Weather is Favorable

The candidates for the Boston College football championship practiced their last afternoon session yesterday afternoon under the direction of Coach Charley Beckley. For more than two hours some of the men were put through a long signal drill. Another squad spent some time in forward passing, catching punts and punting down under the long kicks of Tony and Trowbridge.

Real autumnal weather greeted the Harvard varsity football squad when it began its second week of practice yesterday, and two full sessions were called by the coaches. The tackling dummies were loosened from their hinges and the entire squad sent crashing against athletic opponents and the punting artillery got busy with kicks.

The squad figures soared to 67 yesterday, 17 new men showing up for training. Incidentally, the new training table for the varsity athletes was inaugurated at the varsity club. Most important among the newcomers to Soldiers' Field was Eddie Casey, the Stetson boy who is a contender for a place in the backfield. Casey arrived at noon and was busy with the rest of the squad in the afternoon session.

With a squad now numbering nearly 50, Coach Kavanaugh's charges started on their second week of football training yesterday. "Barney" Thielscher, who for the last two seasons has played a consistent game at halfback, appeared on the field in street clothes and is expected to don the mole skins tomorrow. McDonough, '15, and Malcolm Switzer, '17, who played quarterback on last year's team, also were on the field, as was J. W. Storer, '15, a prominent candidate for guard. Others who reported were Currier, '17, and Gay, '18, tackles; Sandhu, '17, end; Johnson, '15, and Lehman, '15, halfbacks.

THE BRAVES ARE:

8 1/2 games behind Brooklyn.

2 games behind Philadelphia.

THE RED SOX ARE:

1 1/2 games ahead of Detroit.

2 games ahead of Chicago.

7 1/2 games ahead of New York.

8 1/2 games ahead of St. Louis.

If you want help at home or in your business, try The Sun "Want" column.

GIVES PASTEURIZED MILK TO 2500 BABIES DAILY

STRAUS SAYS NONE OF CHILDREN FED BY HIS MILK DEPOTS VISITORS OF PLAQUE

NEW YORK, Sept. 12.—Nathan Straus, who for 25 years has been giving pasteurized milk daily to some 2500 babies in New York, made public today a letter he had written to Surgeon General Report Blue, in which he declares that none of the children fed by his milk depots has contracted infantile paralysis. The condition of these babies, said Mr. Straus, "is in no way different from other babies in this city, except that they receive milk that has been made safe food by killing the germs likely to be found in raw milk."

SUICIDE BY POISON

SPRINGFIELD, Sept. 12.—Rev. Arthur Hartwell, aged 45, pastor of the Congregational church in Jamaica, Vt., died in the Mercy hospital yesterday morning as a result of poison, self-administered. Mr. Hartwell had been suffering from nervous disorders for several years.

Medical Examiner E. J. Mahoney, after viewing the body, decided that Mr. Hartwell came to his death by his own act, after a period of mental aberration.

TENNIS TOURNAMENT

PHILADELPHIA, Sept. 12.—College players from Lehigh, Dartmouth, the University of Southern California, Yale, Harvard, Princeton, Dartmouth, Johns Hopkins and the University of Pennsylvania met today on the courts of the Merion Cricket club in the first round of play in the annual intercollegiate championship lawn tennis tournament.

R. Norris Williams, 2nd, the national champion, who won the singles event paired with Harte, the doubles champion for Harvard last year, graduated last spring and is not in the tournament.

PATSY CLINE EASY WINNER

PITTSBURGH, Sept. 12.—Fighting every minute of the first 10 rounds, Irish Patsy Cline of New York, punned Fighting Bob of Allentown, Pa., last night, before a big house of 20th Century A. C. members.

Cline's cleverness was too much for the rugged Allentown boy, who missed nearly all his attempts to hand punishment to the New Yorker.

OUNDEE BEATS HAMMER

KANSAS CITY, Mo., Sept. 12.—Johnny Dundee was awarded a decision over Ever Hammer last night, at the end of their 15-round match. The men are lightweight.

PIRATES LET OUT THREE

PITTSBURGH, Sept. 12.—The release of three players to Birmingham by the Pittsburgh club was announced yesterday. They are Pitcher H. L. Douglas, Infielder B. W. Cleveland and Outfielder Eugene Madden.

DIAMOND DAZZLES

The Cubs open up in Boston with a double header this afternoon. Dick Rudolph and George Tyler are the pitching probabilities.

Johnny Evers is due to report with the Braves today. His answer to St. Louis telegrams was: "Am in bad shape. Will report Tuesday."

Rabbit Maranville is not expected to back in the game until after the Cub series.

The defensive work of McNally, Scott and Janvin featured the Red Sox-Washington game yesterday.

Considering the Red Sox are playing with only two-thirds of their lineup and a kid infield they are not doing so badly.

Jack Egan, who caught for Lowell the last few games of the season, is now with Providence. Newark also has a catcher named Egan and both worked in the same game Thursday.

Wilbur McGraw, a young catcher from Alameda, N. Y., has been signed by the Braves and is expected to report today.

Egan comes a long ways from filling the bill in the Braves' infield. His three errors at shortstop yesterday were inexcusable.

Frank Gowdy is swinging the willow with the same effect as in the world series in 1914. His two doubles and two singles were a great help yesterday.

The Giants made a clean sweep of the series by winning from the Phillies, 4-0, in four times up, cracked out a home run, a double and was passed twice.

Helmhorn, who substituted at first base for Detroit yesterday, made three singles, a double and a triple in five times at bat.

Bill Wortman is progressing rapidly for the Cubs.

Manager Carrigan says he regards Babe Ruth as one of the most valuable men in the big league ranks today. This tribute to the youngster.

Joe Judge evidently has not suffered to any great extent by his recent injury, judging from the manner in which he is playing for the Senators.

Casey Stengel has played a rattling good game for the Dodgers, and if they drop from the pennant hunt at the 11th hour it will be through no fault of the talkative outfielder.

Cleveland has made more money this year than in any other two years. The acquisition of Tris Speaker was a mistake. Spoke has been a huge paying power to the Indians, but a slight release would do him no harm.

It is understood that several major league clubs are desirous of the services of Leo Galahan, the star outfielder of the Newark International. Galahan is under option to Brooklyn, and the chances of his entering any other fold are very slim.

ONLY GODS KNOW WHEN BREMEN WILL ARRIVE

DIRECTOR OF LINE REPLIES TO QUESTIONER—NEW MERCHANT SUBMARINE COMING

BERLIN, Sept. 11, via London, Sept. 12.—Reports from Bremen say that another merchant submarine is expected to leave that port for the United States at the end of the present month. None of the projected sister ships to the Deutschland and Bremen has, however, been completed yet, according to a statement by Philip Heineken, one of the directors of the Ocean Navigation Co., owners of the Deutschland.

Asked when the Bremen was expected to arrive in America, Director Heineken said:

"Only the gods know," and refused to discuss the matter further.

URGE PREMIER ZAIMIS TO RECALL RESIGNATION

REUTER DESPATCH FROM ATHENS CONFIRMS REPORT OF HIS RESIGNATION

LONDON, Sept. 12.—A Reuter despatch from Athens says that the report that Premier Zaimis has tendered his resignation is officially confirmed and that every effort is being made to persuade him to withdraw it.

STATE WIDE PRIMARIES IN SOUTHERN STATES

DEMOCRATS IN GEORGIA, SOUTH CAROLINA AND LOUISIANA VOTE TODAY

ATLANTA, Ga., Sept. 12.—Democrats of three southern states—Georgia, South Carolina and Louisiana, today balloted in statewide primaries for members of the next session of the legislature. In South Carolina and Georgia interest centered in gubernatorial races while in Louisiana contests for congressmen and court of appeals attracted most attention. Nomination is considered equivalent to election in all three states with the possible exception of the third Louisiana congressional district where W. M. Marlin has joined his friend, Mr. T. P. Cuff, at the Bluffs, the most remote point of Plum Island, to remain for two weeks.

SAYS DEMOCRATS WILL DO SWEEPING IN NOVEMBER

MAINE INDICATES VICTORY FOR PRESIDENT WILSON

NEW YORK, Sept. 12.—Chairman McCormick of the democratic committee issued the following statement:

"The result of the election in Maine indicates a sweeping democratic victory in November. I have never claimed that we would win in Maine, because I realized to carry such a rock-ribbed republican stronghold in a presidential year would be practically impossible. We have materially reduced the usually large republican majority, always obtained on national issues in that state, and that insures the election of President Wilson in November by an impressive majority, just as a republican plurality of 12,500 in September 1892, preceded the election of President Cleveland in November."

"It is the first time United States senators have ever been elected in Maine by popular vote, and the sentiment as to national issues is to be gauged by the vote cast upon the same issues in other years."

Chairman Wilcox of the republican committee telephoned from Syracuse, the republican headquarters, last night a statement in which he said the result of the Maine election means a reunited republican party, assuring the election of Charles E. Hughes in November.

150 RAILROADS REPORT NET REVENUE FOR JULY

\$93,415,264 AS AGAINST \$75,525,939 FOR JULY 1915—GROSS REVENUE \$265,517,824

WASHINGTON, Sept. 12.—Net revenue from railway operations of \$93,415,264 for July, as against \$75,525,939 for July 1915, for 150 railroads, was announced today by the Interstate Commerce commission.

The gross revenue for the roads reporting was \$265,517,824, or more than \$40,000,000 over a year ago. The gross expenses were \$172,002,560, or about \$21,000,000 over a year ago.

AMERICANS ENTERTAINED

Commission Visiting Europe to Secure Better Commercial Relations by International Co-operation Honored

PARIS, Sept. 12.—The American industrial commission which is visiting Europe to secure better commercial relations by international co-operation was entertained at lunch today by the republican club of commerce, industry and agriculture. Later a dinner was given by the commission by the American chamber of commerce at which several senators, deputies and leaders in the French industrial world were present.

GRAND CIRCUIT RACES

SYRACUSE, N. Y., Sept. 12.—L. A. Syrraworth, the world's greatest trotting stallion, attempted to leave the state fair track record of 2:01 1/4, now held by The Harvester, at the second day's meeting of the grand circuit here today. Besides, there were five races with \$12,000 offered in purses. The feature race was the Empire state, with a purse of \$20,000 for 2:05 trotters, which was expected to be a duel between Mabel Trask and St. Frisco.

NORWEGIAN SHIP SUNK

LONDON, Sept. 12.—The Norwegian steamship Lyderkorn, 500 tons gross and owned in Bergen, has been sunk. The crew was landed.

MATRIMONIAL

Cameron—Marsh
Malcolm Dwight Cameron of Tewksbury and Miss Kathleen Marsh of Dudley were married Saturday evening at the home of the bride by Rev. Nathan H. Gist. The bride was attended by Miss Rebecca Cameron, sister of the bridegroom, as maid of honor, and four bridesmaids, Miss Ruth Lyman of North Adams, Miss Hazel Greener of Peru, Miss Isabel Durkin of Oxford and Miss Alice Marsh of Webster. Mr. George Cameron, brother of the bridegroom, was best man. The ushers were Mr. S. Raymond Carpenter of Greenfield, Mr. Clarence Smith of Watertown, Mr. Duncan Cameron of this town and Mr. Ralph Esterbrook of Dudley. The couple will make their home in Woonsocket, R. I.

COULDED WITH AUTO

A motorcycle with side car attached operated by George Sykes of Rockingham street, Wigglesville, struck the rear of an automobile owned by Arthur Pratt of Chelmsford in Central street, near the corner of Jackson street, shortly before 7 o'clock last night. Joseph Doyle was in the side car, but both he and Mr. Sykes escaped injury, although the front of the motorcycle was damaged.

TWO FIRE ALARMS

Smoking Stove Caused Filled Individual to Call Out the Fire Department

The members of Engine 5 were called to 78 Third street shortly before 9 o'clock this morning for a fire in a stove. Smoke from the stove filled the house and one of the members of the household thinking that the house was on fire called the department.

At 9:30 o'clock Engine No. 4 was called to 23 Concord street to extinguish a chimney fire.

T. C. Lee Co. held the insurance on the automobile owned by John P. Adie, damaged by fire on the Littleton road, yesterday.

T. C. Lee Co. carried the insurance on the dwelling owned by Zakay Hoven at 135 Concord street, damaged by fire this morning.

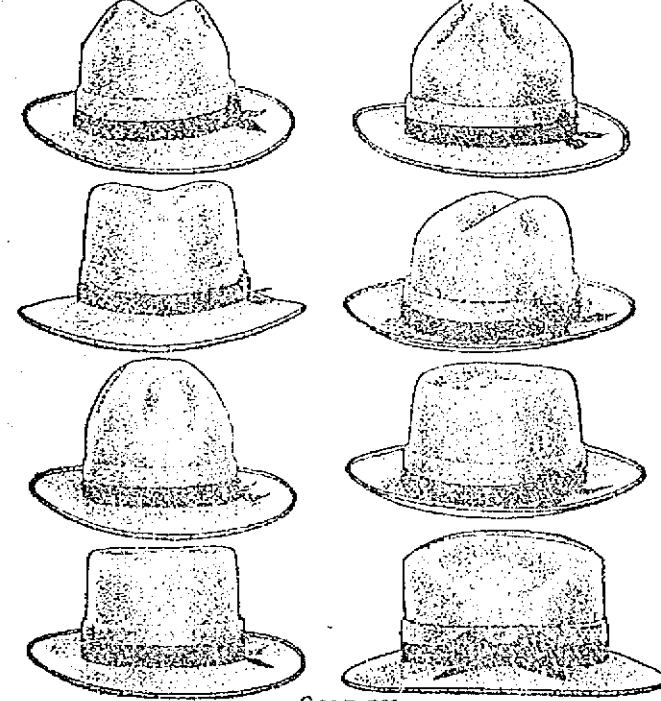

INDUSTRIAL AND STORE NEWS

A small strike broke out in the carding department of the Merrimack woolen mill in Navy Yard, Dracut, yesterday, when a dozen men, all employees of the carding department, left their work, after being refused a 15 per cent. increase in wages.

There were three union meetings in this city last evening and only routine business was transacted. Those who met in regular session were the Dress Makers, Loomfixers and Moulders.

QUESTIONS FOR HUGHES

Some Pertinent Queries on Political Issues by Democratic Campaign Book--Will He Answer?

Candidate Charles F. Hughes and the republican party are challenged in the democratic national textbook, which came from the press today, to speak out for or against the record of achievement made by President Wilson and the democrats.

The challenge is issued in 21 brief, direct and pointed questions addressed to Mr. Hughes and the republicans by the democratic national committee and the democratic congressional committee. All the large issues, domestic and international, are treated. The questions carry the caption "Appeal for Light for Sixteen Million Voters: Let Mr. Hughes and the Republican Party Answer."

These questions are:

1. Do you favor repeal of the federal reserve act passed by a democratic congress, recommended and approved by President Wilson, under which the danger of financial panics is forever banished from the United States?

2. Would you have protested against the violation of Belgian neutrality and have backed the protest by plunging America into the European carnage of slaughter?

3. Do you favor repeal of the rural credits act, passed by a democratic congress, recommended and approved by President Wilson, which gives loan-term credit at interest rates of \$150,000,000 to the farmers?

4. Would you have recognized Victoriano Huerta as president of Mexico?

5. Do you favor repeal of the Clayton anti-trust act, passed by a democratic congress and approved by President Wilson, which overthrew the principle that the labor of a human being is a mere commodity of commerce?

6. Will you, Mr. Hughes, recommend, and will the republican party in congress support a law establishing universal compulsory military service in the United States?

7. Do you advocate repeal of the federal trade commission act, passed by a democratic congress, recommended and approved by President Wilson, which has given so much assistance to legitimate business enterprises and under which adequate protection against unfair competition is provided?

8. Mr. Hughes, would you have tried the policy of diplomatic negotiation as a means of summoning the moral force of law and neutral opinion to stop Germany's illegal use of submarines?

9. Do you favor repeal of the "parking" road act, passed by a democratic congress and approved by President Wilson, for the development of rural highways?

10. Would you, Mr. Hughes, have broken relations with Germany and sent your young men by the hundreds of thousands to nameless graves at the bottom of the Atlantic or in Flanders before the policy of diplomatic negotiation had had thorough trial?

11. Will you undertake to repeal the income tax, passed by a democratic congress, recommended and approved by President Wilson, which places a just share of the burden of taxation upon those best able to bear it?

12. Do you favor violating neutrality and risking the future safety of your country by placing an embargo on munitions of war?

13. Do you favor repeal of the agricultural extension act, passed by a democratic congress, recommended and approved by President Wilson, which for the first time provides facilities for carrying direct to the farmer practical scientific knowledge of how to increase the profits of his farm?

14. Do you favor intervention in Mexico?

15. Do you advocate repeal of the grain standards and warehouses act, passed by a democratic congress, recommended and approved by President Wilson, which aid commerce in the great staple cereals and enable owners of stored agricultural products to secure loans on warehouse receipts on better terms?

16. What is your attitude towards the disloyalists of your party who have attempted to prevent the enforcement by President Wilson, both on the part of the American government and by all American citizens, of an honest neutrality towards all the warring nations of Europe?

17. As much as the largest amount collected in any one year under the

highest tariff ever enacted (Payne-Aldrich act) was \$33,000,000 what form of taxation would you substitute to pay a "preparedness" cost of \$630,000,000?

18. Do you favor the reactionary republican plan of granting huge subsidies to favored corporations, money collected from the people by taxation, as the best way of encouraging the development of an American merchant marine?

19. Do you favor repeal of the child labor law, the anti-injunction law, the sedition act and related social justice measures of high importance, passed by a democratic congress and recommended and approved by President Wilson?

20. Do you favor re-enactment of the Payne-Aldrich act which betrayed your party's campaign pledge of 1908 and which has been repudiated by many republican and all progressive leaders?

21. Do you stand with those progressives and progressive republicans in congress who voted for practically all the progressive measures mentioned above, or do you stand with the reactionary republicans who voted against them?

In conclusion, the two democratic committees say:

"President Wilson and the democratic party submit their case to the American people on the record they have made. Broadly speaking that is the issue of the campaign. Upon the public survey and estimate of that record depends the outcome of the election."

"If, as charged by you, Mr. Hughes, and your supporters, that record is bad and does not justify the continued confidence of the country it will become your duty, if elected, to do all in your power to change that record. We submit that in all fairness the American people, for whose verdict you are contending, are entitled to know how much of this record you and your party will attempt to destroy if placed in power."

WED ABOVE THE CLOUDS

Harry Blanchard and Miss Mildred M. Tibbitts of Sandwich, N. H., Married on Mt. Washington.

MT. WASHINGTON, N. H., Sept. 12.—For the first time in history a wedding was performed on the summit of Mt. Washington at 10 o'clock yesterday.

Harry Blanchard and Miss Mildred M. Tibbitts of Sandwich, N. H., were married standing on the rocks on the crest of New Hampshire's grandest mountain, in the presence of more than 200 visitors.

Rev. E. S. Collier, pastor of the M. E. church at Sandwich, N. H., officiated. The wedding party came by trolley to the summit yesterday, returning late in the afternoon.

231 YEARS OLD TODAY

Historic Town of Concord Was Incorporated September 12, 1635. No Public Observance.

Two hundred and eighty-one years ago today historic Concord was incorporated. The date of incorporation was Sept. 12, 1635, 15 years after the landing of the Pilgrims at Plymouth in 1620.

There will be no special observance of the anniversary today except that "Old Glory" will be hoisted from public and private flagstaffs throughout the town.

INSURANCE AGENTS MEET
BOSTON, Sept. 12.—Insurance men from all parts of the country gathered today for the opening of the annual convention of the National Association of Insurance Agents. The convention will last three days.

47 OF CREW RESCUED

Members of the Crew of the Norwegian Steamer Elizabeth IV Landed at Savona.

LONDON, Sept. 12.—A despatch to Lloyd's from Genoa says that 47 members of the crew of the Norwegian steamer Elizabeth IV have been landed at Savona by the Greek steamer Petritsis.

IN BOSTON—The Sun is on sale every day at both news stands of the Union station in Boston. Don't forget this when taking your train for Lowell.

WEDS MAN WHO FELL IN LOVE WITH HER PICTURE

MISS MARIE BECKMAN SECRETLY MARRIED TO JOHN L. BARLOW, JR., OF NEWPORT, ON SEPT. 2.

BOSTON, Sept. 12.—Miss Marie Beckman of 12 Tremont street, Brighton, well known throughout art circles of Boston and New York for her beauty, was secretly married on Sept. 2 to John L. Barlow, Jr., of Newport, who claimed yesterday that he fell in love with his girl-friend before he had ever seen her.

Last spring Mr. Barlow attended an exhibit of Boston paintings, and was instantly smitten by the appealing charm of one styled "The Candle Light." It was from the brush of Guy Greene. It portrayed a 20-year-old girl ascending a flight of stairs, her features illumined by the glow of a candle she carried in her hand. The girl was Miss Marie Beckman. By strange coincidence, Mr. Barlow met the original of the portrait a week later.

"It was a case of love at first sight," declares Mr. Barlow, "for I had fallen before my wife's charms when I first beheld her features in 'The Candle Light.'"

The parents claim that their daughter was merely in a faint when taken from the bathhouse.

Mrs. A. S. Fought, 55 years of age, grandmother of the girl, was alone in the house with her at the time she was supposed to be taking a bath. Mrs. Fought called the Dorchester police over the telephone after she had smelled gas pouring from the bathroom.

Upon their arrival the door was broken down and Miss Beckman taken unconscious from the bathroom, filled to overflowing with water. A rubber tube, one end connected to a gas jet, diazined upon the floor. On a chair close by lay an empty two-ounce bottle labeled chloral. The body lay in the bathroom in a semi-reclining position with the head and one arm hanging over the side.

Dr. Herbert R. Norton of 11 Bloomfield street, the family physician, was called and ordered her removal to the City Hospital, where it was stated she was suffering from gas poisoning, but was not in a dangerous condition.

FOUND UNCONSCIOUS IN A BATHTUB

15-YEAR-OLD DORCHESTER GIRL NEARLY DEAD WHEN FOUND—EXPECTED TO RECOVER

BOSTON, Sept. 12.—Miss Dorothy Shepard, 15-year-old daughter of Mr. and Mrs. Walter Shepard, was yesterday afternoon taken unconscious from the bathtub at her home, 75 Blumfield street, Dorchester.

The parents claim that their daughter was merely in a faint when taken from the bathroom.

Mrs. A. S. Fought, 55 years of age, grandmother of the girl, was alone in the house with her at the time she was supposed to be taking a bath. Mrs. Fought called the Dorchester police over the telephone after she had smelled gas pouring from the bathroom.

Upon their arrival the door was broken down and Miss Shepard taken unconscious from the bathroom, filled to overflowing with water. A rubber tube, one end connected to a gas jet, diazined upon the floor. On a chair close by lay an empty two-ounce bottle labeled chloral. The body lay in the bathroom in a semi-reclining position with the head and one arm hanging over the side.

Dr. Herbert R. Norton of 11 Bloomfield street, the family physician, was called and ordered her removal to the City Hospital, where it was stated she was suffering from gas poisoning, but was not in a dangerous condition.

THE CRAWFORD OVEN
Here is the most dependable and perfect oven you ever saw. The curved cup-joint flues are responsible. They distribute the heat evenly to every corner of the oven. Better cooking assured.

THE CONVENIENT ASH HOD
The Crawford Ash Hod receives the ashes so far beneath the grate that they cannot back up and warp the grate. Interchangeable with the Crawford Range. When coal bed is empty the ash hod is full. When you remove ash hod replace it with empty coal hod. Easy ash and all ash hod with coal on same trip. Saves extra steps.

THE "DOCKASH" GRATE
The "Dockash" Grate is another feature that makes the Crawford Range better than any other. It is constructed so strongly and simply that it does not get out of repair easily. The grate is outside-including easy, convenient operation. No dust, ashes or danger from live coals.

THE HEAT INDICATOR
Here is a wonderful convenience that is furnished free with every Crawford. Unlike other indicators, the Crawford Heat Indicator is not exposed to the oven's heat, but is protected by a glass shield that destroys accuracy. A big help to better cooking.

Gas oven if desired; end (single) or elevated (double).

THE TEXTILE MARKET
Trade in Most Lines is Very Active—Prospects Encouraging—Buyers Expected in Market Soon

Textile World Journal, New York City, in today's issue gives the following analysis of the various markets which comprise the textile industry:

On a basis of 16 cent cotton, it is only natural that cotton manufacturers should exhibit an attitude of very great independence. The advice of selling agents to sell as far ahead as the buyer is willing to operate is not being accepted in all cases, because of the other elements which enter into the situation. The reduced selling capacity and increased overhead by reason of inability to operate plants to their limit, are decided factors in the situation from the manufacturer's point of view.

Many sellers today have no prices on cotton goods, all lists being withdrawn. They will name quotations only upon advice received from the mills. The irregularity of cotton of late has not caused any apprehensions as to the effect upon price goods prices, for it is contended that raw material could go off several cents a pound without having any influence at all upon the market for piece goods. Cotton goods are increasingly scarce and high, but predictions are made that they will show even further advances.

The men's wear market is very quiet. The rise in price of cotton warps is an element that may add to the seriousness of the situation from the manufacturer's standpoint. It may affect the volume of business on cotton warps which have shown a tendency toward greater activity in face of the radical advance in all warps lines.

Dress goods are slightly more active, with families showing better conditions every day. The situation on cotton warps is just as serious in this division as in the men's wear market, but demand for goods is more persistent in view of the early absence of buyers from the market.

Trade in underwear is quiet because jobbers are well covered ahead, and the inquiries received are not finding a place because only late deliveries are available. Higher prices seem a certainty for the future. Certain prices quoted last week have been withdrawn, but although quotations are high, prospects are thought to be favorable for a brisk trade.

The present confusion in prices, quantities and deliveries of laundry has caused, if ever, been equalled. The rise in cotton and yarns has put a good many manufacturers out of the

market. While a considerable number of buyers are shopping about the market, they are securing decidedly little. The meagre securing has caused the shut down of numerous machines, with consequent curtailment of product.

Prices continue to climb in the cotton yarn market, and chances upward are noted from day to day. All offers are being submitted to spinners for confirmation. Contracts have been placed in certain quarters for four or five months, and considering the level of the market, this disposition to buy ahead is regarded in certain quarters as unhealthy. Buyers are expected to be in the market soon for working yarn, but it remains to be seen whether they will pay the asking prices.

Wool buyers are not in the market as yet, and business locally is very small. Prices are firm, however, and are expected to rise higher.

The silk market is quiet with shades of prices of Yokohama and Canton grades. Importers are looking faint in the present levels, despite the fact that actual cause for weakness has developed.

QUANNAPOWITT FAIR
The horse racing will be the big feature of the sports program of the fair. The races include eight \$200 purse events, in which over 200 of the New England circuit trotting and racing drivers will start each day. Three races will be held each afternoon. The classes include the 2.15, 2.20, 2.25 and 2.30 trotting events, the 3.00 mixed race, the 2.15, 2.10 and 2.25 pace races. The Quannapowitt and Lyon Driving clubs will hold a matinee inter-club

driving contest Saturday afternoon. A dinner and three breakfast china sets have been donated by the Moxie company as prizes for the horse racing events in addition to the purse awards. H. A. Brackett of Reading has charge of the horse racing and entries.

In the mornings of the four fair days an old-fashioned work horse parade is scheduled, together with a horse and pony show, an auto parade and show, and farmers' contests. There will also be baseball and athletic sports on the track, a balloon ascension and parachute drop every afternoon and a high class vaudeville show and band concerts daily at the grand stand.

Governor McCall will be a guest and will speak Thursday, Sept. 14. The "Wonderland midway" on the "west coast" will be more wonderful than heretofore and will please the tastes of the most fastidious seekers after novelty and fun.

Over \$6000 in prizes, premiums and purses have been offered by the management in addition to the program of attractions on the race track, the stage, midway and exhibition hall. The plan of the management make the fair and cattle show the most attractive fair ever held in eastern Middlesex and metropolitan Boston. A quarter admission charge puts the big educational and sporting outdoor event of the season within reach of all classes of the people.

The organization of the fair management this year is headed by Henry A. Upham of North Reading, president; H. C. Barrows of Wilmington, vice president; H. Horace Peasey of Wakefield, secretary; Arthur W. Coadage of North

The is-are Crawford Range plant at Haverhill, Mass.—the most modern and complete of its kind in the world.

A Message To Women Only

Three kinds of women are interested in this message. The woman who cooks for a living. The woman who cooks for her family. And the woman who orders her cooking. The Kitchen Range is a vital factor in the happiness of any family! It is related to the health of the family. Not merely a good range—but the best range is as important to you as the food which it cooks.

Crawford Ranges

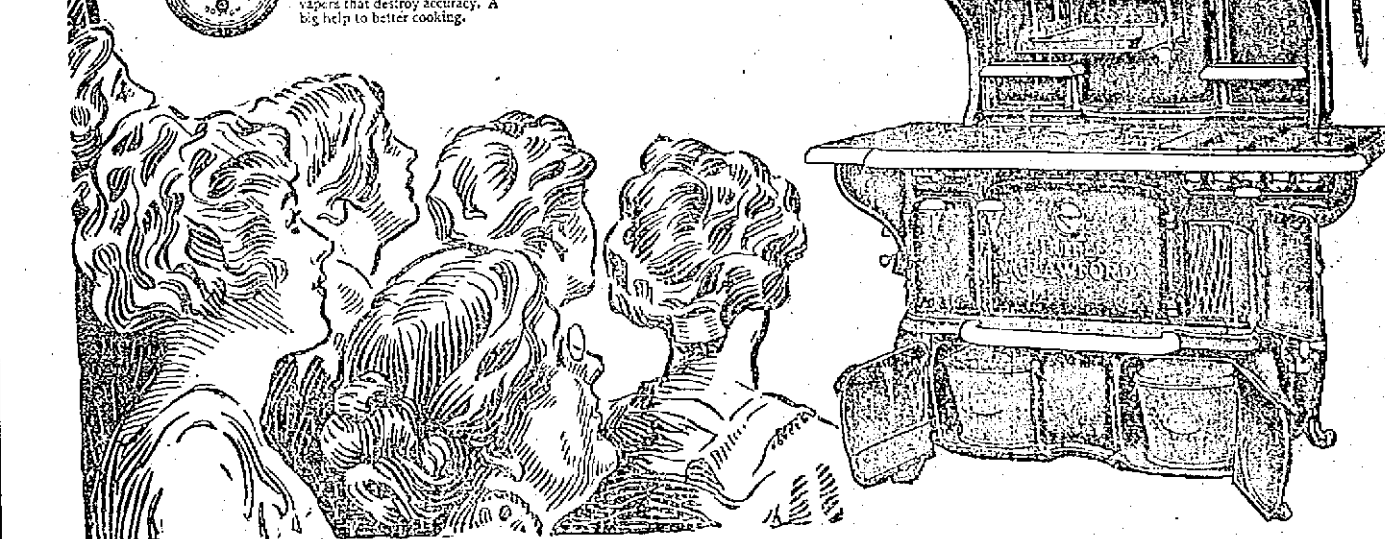

are a life investment for every home. A woman can proudly say "My Crawford" to her friends.

The Crawford Range is the perfect Range. It has at least 20 distinct advantages (some of them patented) over all other Ranges.

There is the "Single Damper" that makes cooking in a Crawford automatic. Fires and oven are regulated by one motion.

Gas oven if desired; end (single) or elevated (double).

ROYAL ARCANUM RATES JUMPED ONCE MORE

Messrs. John J. Hogan and A. G. Walsh of this city have returned from Saratoga Springs, where they attended the annual session of the Royal Arcanum. The adjourned session was held for the purpose of accepting or rejecting a table of increases in the rates of the organization as submitted at the regular convention, and Mr. Hogan informed the writer this afternoon that the said table had been practically accepted.

The increase of rates will take effect Nov. 1 and will affect what are known as the regular rates and table A, the latter to be but slightly affected, while the highest increase will be among those in the regular rate class. The increase will be according to age and will vary from 25 to 50 per cent. Mr. Hogan said the increase was brought about to conform with what is known as the Mobile bill, which was adopted by 34 states of the union and which calls for a summary of the assets and liabilities of all fraternal societies, to be submitted in 1917, and if an organization cannot show that it is 50 per cent solvent, it will have to go out of business or remedy its condition. He said the Royal Arcanum is not solvent in that sense at present and accordingly the increase. It presses heaviest upon the older members.

REVIEW OF POLITICAL EVENTS IN MEXICO

AMERICAN-MEXICAN JOINT COMMISSION BUSY AT NEW LONDON, CONN.

NEW LONDON, Conn., Sept. 12.—The American-Mexican joint commission turned today to a review of the political events in Mexico which resulted in the creation of the present de facto government. At the request of the American members the Mexican commissioners outlined the various developments from the time of the Aguas Calientes convention in 1914 until the present.

The object of the American commissioners in pursuing this line of inquiry was not disclosed. The Aguas Calientes convention was held after the revolutionary armies had entered Mexico City and before the break between Carranza and Villa precipitated new complications. The failure of the revolutionary chiefs who were represented at the convention to find a method acceptable to all under which civil government should supplant military rule led to the war between Carranza and Villa.

The Mexican commissioners said that the call for municipal elections throughout Mexico already had been issued and that a constitutional convention was to be held in the immediate future, to be followed by presidential and congressional elections.

The commission did not meet during the afternoon, the six commissioners going together to the naval yacht Mayflower to pay their respects to President Wilson.

The visit was entirely informal, due to the fact that the president is here to the bedside of his sister, Mrs. Florence, whose death is expected hourly.

BRITISH CASUALTIES 27,581

LONDON, Sept. 12.—For the week ending Sunday, the total casualties of all ranks in all the British armies were 27,581, the war office announced yesterday.

Of these 961 were officers, 210 of whom were killed. There were 5225 men killed out of 25,650 casualties. The total killed was 5153 officers and men.

BARTLETT AND BUTLER

Two Grammar Schools Opened Today With General Medical Inspection—No Sickness Found

The Bartlett grammar school in Wompatucket street opened its doors to 170 pupils this morning, this being about sixty less than the attendance last year and Principal Herbert D. Rixby stated that as is usual many do not report on the opening day owing to the fact that some are away.

The medical examination for infantile paralysis or other diseases was carried on in the same manner as at the high school yesterday and the efficient corps of doctors were kept busy for three hours, but succeeded in examining all before 11:30 o'clock. No suspicious cases were found but several of the pupils were requested to stay away from the sessions until a further examination is made.

The Butler grammar school opened this afternoon and about 800 pupils who are enrolled were put through the medical examination, but at the time of going to press no detailed report as to the condition of the pupils was given out although it is not expected that any will be barred.

SELLING LUNG MOTORS AS REAL LIFE SAVERS

AGENT CALLS ON MAYOR O'DONNELL TO TELL VIRTUES OF LUNG MOTOR

A representative of a life saving device company from Chicago is in town to sell lung motors to the city, the waterway committee or anyone else who wishes to buy.

The lungmotor is used generally in hospitals throughout the country, says the representative.

The agent called upon Mayor O'Donnell with a formidable list of cities which use the lungmotor and have discarded the pulmonary.

The lungmotor, it is claimed, imitates natural breathing, whereas the pulmonary completely empties the lungs, causing them to collapse completely and thus destroys the normal statics of the chest and the heart.

SERVED 13 YEARS OF 30 YEARS' SENTENCE

NEW HAMPSHIRE COUNCIL PARDONS JOHN GREEN AND TWO OTHERS

CONCORD, N. H., Sept. 12.—The governor and council today pardoned from state prison John B. Green of Milan, who had served 13 years of a 30-years sentence for homicide, Cyril Dineen, who had served 13 years of a 12-years sentence for killing his son while intoxicated and Leo P. Maloney of Gonic who had served nine months of a sentence of a year for killing a pedestrian while operating an automobile.

BORDEN TO TRY ARCTIC AGAIN

NORME, Alaska, Sept. 12.—John Borden, the wealthy sportsman of Chicago, whose power schooner Great Bear was wrecked on Pinnacle Rock, in Bering Sea, on August 10, left for Seattle on the steamship Unatilla.

Borden says that he will build another boat next winter, engage Capt. Louis L. Lane, his partner of this year, as commander, and set out on another Bering Sea and Arctic ocean cruise.

COACH OF BATES COLLEGE

LEWISTON, Me., Sept. 12.—Dr. William Park, Tufts '15, of Somerville, Mass., has been selected as coach at Bates college, according to an announcement by Capt. Devereux today.

DEMOCRAT IN LEAD

RANDOLPH, Me., Sept. 12.—With four small towns and two plantations not yet reported, T. Herbert White, democratic candidate for sheriff of Penobscot county leads J. Fred O'Connell, republican nominee, by 229 votes. There is also the vote from the Texas border to be counted, but Mr. White's election seems assured.

Plum colored worsted cut with a long coat and trimmed with seal gives this juvenile effect. The waist is shirred into a narrow stitched belt across which a seal surplice gives a dashing finish. A tricorn of black eque feathers is exactly the right hat to go with this suit.

BARLOW AERIAL BOMB HITS GROUND, REBOUNDS AND EXPLODES IN THE AIR

'LESTER BARLOW and NEW AERIAL BOMB

Lester Barlow, the man shown in the accompanying photograph with his new aerial bomb, has been showing his invention to the United States army ordnance experts. It has been accepted by the government. The bomb is dropped from an aeroplane, hits the ground, rebounds and explodes in the air and is the only bomb known that acts in that manner. Mr. Barlow was chief engineer under Villa when that military leader was still in Carranza's service.

GOV. CURTIS OF MAINE A GOOD LOSER

SAYS "THE BEST MAN WON AND THERE ARE NO BONES BROKEN"

PORTLAND, Me., Sept. 12.—"The best man won," said Gov. Curtis today in commenting upon the election of Carl B. Milliken, his republican opponent, "and there are no bones broken. The campaign is a thing of the past with me and there is no harm done. Just now and for the next few months, I shall be wondering seriously whether I am the wrong man and am in the right place, or am the right man after all in the wrong place. We got a good licking and that's all there is to it. I congratulate the successful candidates."

DEMERS AT SPRINGFIELD

Lowell Hobo Who Walked From San Francisco Will Be Here Next Week to Greet His Friends

George Demers, a resident of this city, who has undertaken to walk from San Francisco to Lowell, has reached Springfield, according to a report received by the Sun today from Mr. Demers. The young man states he is enjoying the best of health and inasmuch as his friends in Springfield are planning a reception for him he will remain in that city at least a couple of days. Mr. Demers, who is known on the road as "Demers, the Hobo Magician," expects to reach Lowell some time next week.

HUGHES AT PLATTSBURG

PLATTSBURG, N. Y., Sept. 12.—Charles E. Hughes spent today, the last day of his presidential campaign trip in Plattsburg. The politician reached here shortly before 1 p. m. He spent the military training camp and tonight was to speak in a hall here.

Mr. Hughes today made this statement concerning the Maine election. "I am deeply gratified by the result in Maine. We shall go forward with renewed confidence."

NEW HAVEN COST IS HIGHEST

NEW YORK, Sept. 12.—The New Haven railroad has the highest actual cost of operation of any railroad in the United States, according to H. Kentfield, general freight agent of the road, in testifying yesterday before the interstate commerce commission at a hearing on the proportional and transportation rates to southern and western points in connection with the steamship lines, which the New Haven purports to cancel.

Mr. Kentfield said, however, that the rates of the New Haven were reasonable in comparison with the rates of other carriers operating in New York and Pennsylvania. He also testified as to the rates made to meet steamship competition between New York and Boston.

The hearing was adjourned until this morning at 10 o'clock.

YOUR BOYS AND GIRLS

Nearly all children have a tendency to suck their fingers. Try this method and see if it doesn't work out successfully. Buy one-half yard of surgeon's plaster at a drug store. It comes on a spool about two inches wide, then cut a strip about one-quarter inch wide, or wider if the child's fingers are broad, then cut this half yard strip in short lengths, then take one and stick right over the top of fingers and cover the nail, then another strip and put right around the first strip and down to the knuckle.

The surgeon's plaster will stick and be firm. Do this every night before the child goes to bed, for one month. She may try to suck the plaster at first. If so, put on another piece in the morning, making sure never to let the child's fingers be without the plaster.

No one knows at what early stage a child receives its first impressions, but we would perhaps be surprised if we could see the effect produced on the baby mind by its environment, whether it be cheerful, placid and uplifting, or gloomy, depressing and nerve-exciting. The home in which the little one enters into existence and its atmosphere are the first influences which are brought to bear on a young child and which are often of lasting effect. It behooves every mother, to try to keep the atmosphere of the home as peaceful, as happy and cheerful as possible.

When a child grows older and begins to notice objects, even when very young, the picture in its home, and more especially those in the nursery, where it spends most of its time, come in for a large share of this silent influence.

As soon as the little one is old enough to understand anything he usually exhibits a fondness for stories. Even babies will sit spellbound listening to the short tales suited to their comprehension.

The stories told should always be happy ones, especially at bedtime. They should set before the child pleasant mental pictures, and be calculated to instill into his mind an interest in and a love for dumb animals, and to foster his higher instincts—courage, unselfishness, gentleness, ambition. Stories form one of the most potent influences in the character of the growing child.

Since the condition of the health depends so largely upon the condition of the teeth, the rule of constant care should be rigidly enforced, and the time to begin this enforcement is when children are young, so that the habit will become instinctive.

Dentists tell us that it takes time to clean the teeth properly, that the vertical movement should be used instead of the usual horizontal one, that after the powder or paste application there should be a final brushing with clear water, so that every lot of foreign substance may be removed.

It is never too early to take children to the dentist for inspection and cleaning of teeth. Small boys sometimes get the idea the mother is "fussy" when she tries to persuade them to give attention to their teeth.

But when a dentist talks to them outlining the troubles that neglect will cause, and giving good reasons for the necessity of constant care, the boys are impressed.

Another habit of the small boy is to use his teeth for a nut cracker, and to enter into competition to see whether he can crack the toughest nuts. Little girls bite off threads and tear bits of cloth instead of using the scissors. They must be taught that the price of teeth which will last

through life is constant and respectful attention.

In teaching little girls to cook it is essential to make the work attractive and interesting to them, and to prevent discouragement from failure it is better to use the smallest quantity of materials. The cooking of a single chop or frying a few slices of bacon is much more apt to prove a triumphant success than a bigger undertaking.

The measurements are not hard to learn, the average little girl will soon grow quite adept at dividing the teaspoon lengthwise for a half spoonful, and making another dividing line at right angles, but a little nearer the handle than the dip, to allow for the spreading of the spoon, for the quarter spoonful. The youthful cook will enjoy proving that three level teaspoonfuls make one level tablespoonful, and that two cups of milk just fill a pint measure and four cups a quart measure.

A gentle massage of a very young baby's nose can be often vastly improved. Grasp the nose between the thumb and middle finger and gently massage it downward for a few moments twice daily.

Eye-strain is the main cause of nervousness and headache. That much most mothers know.

But do they know that eye-strain is many cases at the bottom of other troubles—stomach disorders, irritability, inability to progress in school?

The near sighted child is soonest discovered. He holds his book too close to his eyes; he must sit near the blackboard at school; but the far-sighted child, the astigmatic child, may suffer a long time before the trouble is suspected. See that they receive only the best treatment.

A baby's nerves are much more delicate and sensitive, in proportion to his size, than those of a grown person, and the foundations of an adult life of acute suffering is often thoughtlessly laid out for him while he is yet too young and helpless to protect himself.

Needless slamming of doors, heisterous talk or laughter, and, in fact, sudden or unexpected demonstrations of any sort are all disturbing to the baby's nervous system, and all produce ill-effects that are more or less lasting.

Many little children are rendered nervous and irritable nowadays by too great a number and diversity of toys. The fewer things a baby has to play with the better, and there should be nothing that is not of the simplest construction.

Every mother should investigate the milk supply thoroughly before trusting the baby's life to it. The milk should be absolutely pure and free

from preservative and be delivered fresh every day in stoppered bottles. Corks or wooden stoppers never should be allowed as they absorb impurities. Soon after the milk is delivered the mother or nurse should prepare enough food for the baby for twenty-four hours. This should be put into the feeding bottles at once, just enough in each bottle for one feeding.

This will make it necessary to have about ten bottles for the small baby. The bottles should be stoppered with a little absorbent cotton and placed on the ice until needed. Remember that milk absorbs odors, and do not place it near onions or any vegetable with a pronounced odor.

When it is time to feed the baby one bottle should be heated by being placed in a pan of hot water. The other bottles should remain undisturbed until needed.

If a baby chokes, raise its left arm up over and very close to its head. This will relieve it at once.

TO HOLD CONFERENCE FOR COLUMBUS DAY

CITY CLERK FLYNN HAS CALLED MEETING FOR TONIGHT—LOCAL SOCIETIES INVITED

The various fraternal and social organizations have been invited by City Clerk Flynn to attend a conference which will be held this evening at city hall. The conference will be held at 8 o'clock and will be presided over by Mayor O'Donnell and its purpose is to determine how Columbus day, Oct. 12, should be observed in this city.

It is expected that all the local societies will be represented at the conference and it is up to the delegates to determine if a celebration will be held, and if so in what form. All organizations are urged to be represented at the conference which will open at 8 o'clock.

ENGLISH SHELLS READY TO BE SENT INTO GERMAN LINES

REMEMBER CAPTAIN FRYATT

SHELL ON GUN TRACK

Evidence of the extent to which the British army in France was agitated by the execution of Captain Fryatt is found in the accompanying pictures, showing shells marked "To Captain Fryatt's murderers" and "Remember Captain Fryatt" ready to be fired into the German lines. London reported last month that Professor Knickerman said in the Kreuz Zeitung, Captain Fryatt was shot with the deliberate intention of exasperating British opinion and enabling pan-German annexationists and opponents of the German chancellor to say "England will never forgive us now. We must fight her to the last drop of blood." This contention, of course, has been denied by pro-Germans, who defend the execution of Fryatt on the ground that he while commander of the British steamship Brussels tried to ram a German submarine which had sunk mened him to halt and submit to visit and search. They call Fryatt an outlaw.

WEALTHY BOSTONIAN HAS TYPIST FOR BRIDE

ROBERT SEDGWICK MINOT AND
MISS MURIELLE JOHNSTON
MARRIED IN CHICAGO

MINNEAPOLIS, Sept. 12.—A romance which is likely to startle the Boston society came to light here yesterday when further facts were learned of the marriage in Chicago a week ago of Robert Sedgwick Minot, wealthy son of the late Robert S. Minot, of Beacon street, Boston, and Miss Murielle Johnston, former president of the Good Government association in that city, to Miss Murielle Johnston of Minneapolis.

The bride was a stenographer in the office here of Fred S. Meyer, manager of the Laclede Film service, where young Minot met her. Now she is going to become a moving picture actress and star in a company of which her husband is the principal stockholder. Mrs. Minot herself says so.

"I couldn't be happier," she whined Mr. Meyer from New York yesterday. "At last my dream has come true. I am going into the film."

It was just six months ago that Minot and Miss Johnston met. It was a case of love at first sight. Within three months, Miss Johnston, the stenographer, was engaged. She was married in the city of Chicago, by the Rev. Edward Selzer, on Sept. 4, without any of the Minot family being present.

REAR ADMIRAL HENDEE DEAD

BROOKLINE, Sept. 11.—Rear Admiral George E. Hendee, U.S.N. (retired), died at his home here last night. He was born in Boston 75 years ago and was retired in 1902 after more than 40 years of continuous service in the paymaster's division of the navy. He took part in many naval engagements during the Civil war.

GIRL REPORTED DEAD, IS VERY MUCH ALIVE

ARRANGEMENTS MADE FOR FUNERAL WHEN MOTHER DISCOVERED REPORT WAS UNTRUE

STRAFFORD, N. H., Sept. 12.—With all arrangements made here for the funeral on Wednesday of Miss Adella Linscott, daughter of Mrs. Emma Linscott, word was received yesterday from Mrs. Linscott in East Orange, N. J., where the girl was reported to have died, that Adella is alive and in the best of health.

Mrs. Linscott received a telegram last Saturday reporting to come from another daughter, Mrs. Charles Foster, of East Orange, stating that Adella had died suddenly while visiting her. Mrs. Linscott started at once for East Orange. She reached there to find Adella helping her sister to wash the dinner dishes.

IN BOSTON.—The Sun is on sale every day at both news stands of the Union station in Boston, and at the Lowell station when taking your train for Lowell.

CARL HEDER EXPERT AT PITTS

As displayed elsewhere in this paper the Pitts Auto Supply will have heavy trucks, a factory expert on Schebler carburetors, at their store Wednesday and Thursday for the purpose of inspecting and repairing, as well as explaining any difficulties that may have arisen. No doubt many motorists will take advantage of this extension of Pitts' service, coupled with Schebler service. "Jimmie" Boland is kept on the pump, he being the one in charge of the accessory and repair department. He says that last Saturday was the busiest day they have had for a long time.

If you want help at home or in your business, try The Sun "Want" column.

LADY LOOKABOUT

Last week's rainy weather produced many of those transparent oil skin waterproof coats on the streets of Lowell. They seem to have solved the difficult problem of the raincoat, a garment which has always been bulky and awkward and notoriously unbecoming. The oil skin coat, with its wide range of soft colors, is light in weight and carries with it a sort of daintiness never before known in a rain garment. There is something newer even than the coat of oil skin, however. It is the suit of oil skin. The short coat is of smart length, coming just below the hips. The circular skirt flares from the hem to belt with snap fasteners so that it can easily be slipped on over the dress. These waterproof suits come in nearly all colors, and are much more becoming than raincoat which has hardly changed a line in a generation.

Woman Suffrage

If President Wilson's attitude toward woman suffrage be the sincere expression of his change of views caused by changing times and conditions, and why should we doubt his sincerity? It is simply a reflection of the change of attitude of thousands of men throughout the country. There are, to be sure, those among us who appear to be progressive enough in some directions, but are adamant where equal suffrage is concerned. So inflexible are they that one is forced to doubt their openness of mind. They remind one of the Scotchman who declared with a ferocious thump of his fist, "I'm open to conviction, but I'd like to see the man that can convince me!" There is a frankness and yet a beautiful humility in Mr. Wilson's words when he remarked in his speech at the convention in Atlantic City, "I have felt here the wholesome conviction of the occasion." Therein lies the possibility of success for the cause—its wholesome conviction, and it is the wholesome conviction of the cause which has given it the countless friends and advocates it now has.

Love Stories

In this day when commercialism and the craving of cash seem to have the country by the ears, it is most refreshing to hear the cry going up from magazine editors everywhere for love

MILK DEALERS IN COURT

Charged With Selling Without License — Bar Room Brawl — Assaulted Mother-in-Law

Milk Inspector Melvin F. Master had three men before Judge Enright in police court this morning, two charged with selling milk without having a license and the third with having added water to his milk.

Joe Kalkahara, who conducts the restaurant at the United States Court, Co. plant admitted that he had been selling milk without having a license but pleaded ignorance of the law. He was found guilty and a fine of \$10 was imposed.

A. M. Blackie, also charged with selling milk without a license, asked for a continuance until Saturday and his request was granted. He was charged with adding water to his milk.

Unsubstantiated Charge. The testimony offered by Inspector Master one of the samples showed that about ten per cent of water had been added. The defendant informed the court that if any water had been added that it had been done by some unknown person. He was found guilty and a fine of \$50 imposed.

Unable to Find Interpreter. Viktor Koski was charged with stealing several small articles from the Woolworth Five & Ten Cent store, but as the government was unable to secure a person who could interpret the language spoken by the defendant, the case was continued until tomorrow morning.

Wounded Pot of Paint. John A. Lyons was charged with drunkenness and assault and battery on Peter Brunelle. Last Thursday the pair met in a saloon in Liberty square, and Lyons had a pot of paint which he was going to use on the exterior of a house. He cautioned Brunelle to be careful he did not kick the pot over, whereupon it is alleged that Brunelle became abusive and after calling Lyons vile names and spitting him, Lyons picked up the pot of paint and threw it at his assailant.

STILL ANOTHER CASE OF INFANTILE PARALYSIS

CHILD ON SPRING STREET THE VICTIM—HOUSE QUARANTINED BY BOARD OF HEALTH

The ninth case of infantile paralysis in this city was confirmed yesterday by Dr. C. E. Simpson of the state board of health. The patient is Walter Warjaeck, 13-months old baby of Michael and Agnes Warjaeck of 13 Spring street. The case was diagnosed by Dr. J. J. Welch Sunday and confirmed yesterday.

About three weeks ago the Warjaeck family visited relatives in Lawrence. About ten days ago the child was taken ill, but a physician was not called in until Sunday. The usual quarantine precautions affecting the parents and two other children besides the patient have been taken by Agent Bates of the local board of health.

Dance, tonight, Highland hall.

PARAGON FIRE PROBE

HULL, Sept. 12.—Chief John L. Mitchell of the local fire department; Frank E. Reynolds, chief of the Hull police; Charles F. Rice, chief fire inspector for the state police, and Chief Bleckford of the Metropolitan park police yesterday held an investigation into the origin of the Paragon fire Sunday morning. All the employees of the park who were quartered on the premises at the time the fire broke out were closely questioned, but nothing definite could be learned from them.

Herbert Smick, who discovered the fire and called in the fire alarm, stated that when he discovered the fire it was only visible at the top of the "sand bumps." Patrick J. O'Toole, an electrician at the park, said that the fire started in a frankfurter stand, which was the first building north of the "sand bumps." There is still one more person to be questioned—William at one time employed by William

SARGOL THE FLESH BUILDER

Used successfully for eight years by thin men and women who want to put on flesh and increase weight. Eat with your meals. Pleasant, harmless and inexpensive. Sold in Lowell by Lowell Pharmacy and leading druggists everywhere.

The goods consist of art squares, 5x12, oak dining room set, 5 chairs, china closet, buffet, plank top round table, 5-piece parlor suite in leather, oak dresser, chiffonier, two brass beds, five white iron beds, 2-inch post, oak floors, cotton and combination mattresses, 25 small pumps, odd chairs and rockers. All the above goods are new and perfect. Free delivery to all parts of city and surrounding towns.

SPECIAL 15 single folding beds with springs, excellent beds for camps; they have been used with a couple of months. 4-piece parlor suite, range, gas stove, dining table, chairs, lot of matting, pictures, antique table and desk, three barber chairs, odd chairs, etc.

increase in insurance rates. The petition was referred to the commissioner of water and fire.

Sewer Bill 70 Years Old

Harvey B. Greene, a member of the park commission, appeared before the council for the purpose of having a sewer assessment abated. Mr. Greene stated the bill amounts to \$56.04, and although he is willing to pay any legitimate bill, he feels he should not pay this one. He said the bill dates back 66 or 70 years and was first sent to a man named Parker. It seems that 69 or 70 years ago a sewer was laid in Stevens street and that a Mr. Parker, owner of considerable land in the district, made a deal with the city in which he gave up some land in payment of the sewer assessment. It seems that later a bill amounting to \$35.04 was sent to Mr. Parker, who refused to pay it. Later, so Mr. Parker claimed, the amount of the bill was added to the regular tax bill and he paid it.

Case Continued. The cases of Michael F. O'Hare and John A. MacDonnell, charged with drunkenness, assault and battery and larceny from the person, were continued until Saturday, owing to the fact that several important witnesses are engaged at the criminal session of the superior court.

Drunken Offenders

There were several drunken offenders in court. A woman who made her third appearance was sentenced to four months in jail, and a man who was also arrested with her was sentenced to five months in the house of correction. A couple of offenders were sent up jail for a few days in order to recuperate. Several were released by the probation officer prior to the opening of court.

Assaulted His Mother-in-Law

Joachim Wojtowicz was charged with drunkenness and assault and battery on Mary Smith. He was brought before the court last week on a complaint of neglect of family and the court ordered him to pay \$6 a week to his wife but to keep away from her. It was testified that last Sunday he called at the house and assaulted his wife and her mother. The court, after considering the evidence, found him guilty and ordered him to pay a fine of \$10 for assault and furnish a bond to keep the peace for six months and also a fine of \$5 for drunkenness. He appealed. Frank Goldman appeared for the defendant and the government was represented by William A. Hogan.

Mr. Walker Got Contract

A contract for work on the heating system of the Park Hotel school, between the city and Daniel H. Walker was approved and signed by the members of the council. The contract amounts to \$1485.

Slipped on Oiled Street

Miss Bertha L. Cooney of 51 Huntington street has filed a bill with Commissioner Morse, amounting to \$41.10, for payment of damaged clothing. The young woman claims she slipped and fell in a puddle of oil at the junction of Nesmith and Porter streets with the result that her clothing was ruined. The itemized bill presented is as follows:

Dress	\$15.55
Shoes	8.00
Underwear	15.75
Stockings	1.80
Total	\$41.10

Commissioner Morse said in his opinion \$40 was sufficient, and it was voted to pay Miss Cooney the sum of \$40. John E. Drury of the board of health also filed a bill for damaged clothes to the amount of \$25. It seems that Mr. Drury also slipped in the oil at the same corner. Miss Cooney and that his clothes were ruined. The bill was approved.

The meeting adjourned at 11:25 o'clock until Tuesday morning at 10 o'clock.

Dance, tonight, Highland hall.

BIG DRIVE OF ALLIES

Continued

In northern France last week have been suspended, the allies apparently being content, for the present at least, to hold the ground won against German counter-attacks. No important military operations are chronicled today.

Bulgars Evacuated Ports

In Macedonia, the Bulgarians are reported to have evacuated the forts at Kavala, which they occupied last month when they pushed their left flank forward to the Aegean coast. The evacuation of the forts rendered the Bulgarians, who are said to have turned them over to the Greeks.

Greece to Join Allies

London dispatches indicate a growing belief that Greece may shortly be forced actively on the side of the entente allies in the Balkan campaign. Should she enter the war, however, she will do so, it is said, without the guarantee of territorial advantages offered her in the past.

Important Changes Are Pending

ING IN THE NEAR EAST

LONDON, Sept. 12.—The political situation in the Near East, is of no less interest to European capitals at the moment than the military outlook as it is believed important changes are impending. The reasons which prompted the evacuation of Greece to prevent its aggression are now set forth in the despatch from Athens except that the complaints internal incidents were preventing him from dealing with the external situation. It is believed in London that his offer to resign his post was due to the fact that he accepted it on the understanding that he was to maintain neutrality, and that in view of the Bulgarian occupation of Greek territory he finds this no longer possible.

Should Greece decide to join the entente, she will do so, it is understood, without any guarantees for the future. There was a time when the entente was ready to offer Greece territorial advantages in return for her military assistance. That time has passed and if Greece now comes in, according to reports, she must waive the question of conditions except that the

INVESTIGATE FALL OF BIG BRIDGE AT QUEBEC

QUEBEC, Que., Sept. 12.—The St. Lawrence Bridge Co. and the Quebec bridge commission are conducting a joint investigation today into the collapse of the central span of the Quebec cantilever bridge over the St. Lawrence river while it was being hoisted into its position. The death toll remains at eleven.

Engineers in charge of the work of construction said that as soon as the cause for the accident is ascertained the work of either constructing a new span or raising the collapsed one would be undertaken. They claim that the work of reconstruction would not exceed three months in the event that the submerged span is not available for use. It was estimated the work will cost \$1,000,000.

Quebec harbor officials on finding that the fallen span did not block the ship channel, permitted the resumption of navigation by ocean-going vessels.

Each of the parties engaged in the fight claimed that the other was the aggressor. Japs said that Wilson overcharged him for bread and when he objected the trouble occurred. He said that he used the knife only in self defense, and that while he was struggling to secure the knife from Wilson the latter stabbed him in the eye. He denied that he tried to get possession of the weapon.

The defendant's story was that Japs refused to pay him for the order delivered and that when he demanded the money the fight occurred. He denied using the knife at all and said that what injury was done to Japs eye was caused by the club.

Dr. J. R. O'Connor testified that the wounds could not have been caused by anything but a sharp knife. He said he treated 20 distinct cuts which required several stitches.

The court agreed to allow the attorneys of both parties to confer for the purpose of fixing Japs some separate bond and no finding was made in the case this forenoon.

Beauty Sentenced. Henry Beaudry, accused of a statutory offense, was sentenced to one year in the house of correction. He was placed on probation yesterday. Beaudry left a wife and four children in North Adams and came to Lowell, where he lived for several weeks.

Assault Case Continued. The case of John Kalaportakos, charged with striking William Shuett on the head with an iron pipe following an argument over the distribution of work in the Barry shoe shop, was called and continued until tomorrow morning. Kalaportakos appeared on a sentence in the lower court. He was represented by Daniel J. Donohue.

Peter Coulis pleaded guilty to a charge of assault and battery on his wife and the case was placed on file on payment of five dollar costs. Defendant was represented by George P. Tey.

Three men were placed on probation for drunkenness. Two were very young and their records go back less than a year. The third is an older man but Probation Officer Ramsey asked to take the three under his charge.

The following failed to answer to their names and were defaulted: James and Massa Berak and Peter John, assault and battery; Daniel E. Cameron, violation of the milk law; Joseph Karem, larceny; William O'Keefe, drunkenness. At 1 o'clock a recess of one hour was taken.

ed over to the Greeks. They were of no military value to the Bulgarians after the arrival of warships of the entente allies, whose guns now dominate Kavala.

FRENCH REPTISE TEUTON ATTACK SOUTH OF THE SONNE

PARIS, Sept. 12, via London.—"South of the Somme an enemy attack against one of our trenches to the east of Reilly-on-Santerre was repulsed easily by means of grenades" says the official announcement from the war office today. "A minor operation enabled us to occupy a German trench south of Bligny cemetery. Everywhere else there was the usual cannonading during the night."

VOX MAUGHSEN IN CHARGE OF GERMAN AND BULGARIAN FORCES

BERLIN, Sept. 12, via London.—The official German report of today shows that as had been reported unofficially, Field Marshal von Maughsen is in charge of the German and Bulgarian forces which are invading eastern Rumania. The statement says further progress has been made in Dobruja.

NEW SUCCESSES FOR THE RUSSIANS IN THE CAR-PATHIANS

PETROGRAD, Sept. 12, via London.—422 p. m.—New successes for the Russians in the Carpathians are announced by the war office today. Several heights in the Bialy-Cheremshy region near the Bukovina border, were taken and held, and Kout mountain, to the south, also was captured, together with nearly 1000 prisoners.

BULGARS EVACUATE PORTS AT GREEK SEAPORT OF KAVALA

PARIS, Sept. 12, 5:15 a. m.—The Petit Parisien says it learns from a semi-official source that the Bulgarians have evacuated all the forts at the Greek seaport of Kavala which they occupied last month.

The forts are said to have been handed over to the Greeks.

Lowell Aeris will hold a special meeting tomorrow evening (8 p. m.) in Charles hall, Central street at 1:15 o'clock sharp. For order

PATRICK J. MCANN, Secretary.

CRIMINAL COURT

Continued

defendant and complainant. Charles J. Wier appeared for the defendant and J. Joseph O'Connor appeared with Deputy District Attorney Crowley in behalf of the government.

Charlotte Shepard, a young woman who on the morning of the trouble was employed in Japs' store, first told her story. She told of the argument between Wilson and Japs relative to a bill for bread delivered at the store, Japs claiming that it was excessive and he would not pay it. Finally Wilson was ordered from the Japs store; he refused to go. Then a club was brought into play and, it is claimed, Japs hit the defendant on the shoulder as he was passing out. Wilson left the place and returned in a few minutes. Another struggle ensued and while the two men were in a clinch an open knife was discovered in a counter. Miss Shepard testified that both men reached for the knife but Wilson secured it first. They fought for possession of the knife and Japs eye was cut, she said.

Miss Edith Kilpatrick heard the two men talking loudly and saw them striking each other, but thought it advisable to keep her distance from the spot and did not see the knife in action. She said she heard Wilson when first leaving the store say: "I'll get even with you." She also saw the wound which caused the complainant the loss of his eye.

Each of the parties engaged in the fight claimed that the other was the aggressor. Japs said that Wilson overcharged him for bread and when he objected the trouble occurred. He said that he used the knife only in self defense, and that while he was struggling to secure the knife from Wilson the latter stabbed him in the eye. He denied that he tried to get possession of the weapon.

The defendant's story was that Japs refused to pay him for the order delivered and that when he demanded the money the fight occurred. He denied using the knife at all and said that what injury was done to Japs eye was caused by the club.

Dr. J. R. O'Connor testified that the wounds could not have been caused by anything but a sharp knife. He said he treated 20 distinct cuts which required several stitches.

The court agreed to allow the attorneys of both parties to confer for the purpose of fixing Japs some separate bond and no finding was made in the case this forenoon.

Beauty Sentenced. Henry Beaudry, accused of a statutory offense, was sentenced to one year in the house of correction. He was placed on probation yesterday. Beaudry left a wife and four children in North Adams and came to Lowell, where he lived for several weeks.

TO PROTEST TO ENGLAND

British Torpedo Boat Violated American Neutrality by Holding Steamer in Territorial Waters

WASHINGTON, Sept. 12.—Violation of American neutrality by a British torpedo boat which held up and examined the Philippine steamer Cebu, within the territorial waters of the Philippines, was reported to the war department today by Gov. General Harrison. The despatch immediately was transmitted to the state department and will be made the subject of a vigorous protest to Great Britain.

The incident occurred yesterday, one mile and a half off Caruan Island. According to the report of the steamer's master, Lieut. Balles, commanding H.M.S. destroyer No. 2, boarded the Cebu, made inquiries about her passengers and took both the ship's manifest and her passenger list. Apparently, the officer was searching for a man named Bady who was not found.

On releasing the Cebu the lieutenant made this note on her log: "Boarded at 3:50 a. m., 2-11-16, examined and passed."

There has been more than one complaint about the activity of British vessels around the Philippine Islands and while Governor-General Harrison's report furnishes the basis for a specific protest it is probable that Great Britain will be called upon to restrict the operations of her patrolling squad, run generally in and near the territorial waters of the islands. In order that there might be no mistake about where the Cebu was at the time she was held up, her exact position was given by the master.

DEATHS

MCGOWAN.—Mrs. Elizabeth McGowan died yesterday at 801 Central street, aged 77 years. She leaves three sons, Charles, Eugene and Thomas Coxon of Lowell, and five grandchildren.

O'HARE.—Mrs. Mary A. O'Hare died yesterday at her home, 19 Russell street. She leaves son, John J. of Providence, R. I.; two daughters, Mrs. Thomas J. Flynn and Theresa O'Hare of Lowell, and one brother.

DEVINE.—John J. Devine, aged 31 years, died this morning on Forest street. Dr. Devine was a popular and well known resident. He leaves to mourn his loss his mother, Mrs. Mary Devine; one sister, Miss Alice and one brother, William Devine. The remains were removed to the home, 21 Pleasant street, by Undertakers M. H. McDonough Sons.

BRADY.—John J. Brady, a well known resident of this city, passed away this morning at his late home, 376 Graham street, after a short illness. He leaves to mourn his loss his wife, Mrs. Mary Brady; two daughters, Mrs. Thomas J. Devine and Mrs. Mary Brady; one son, Charles K. Brady; one son, Charles K. Brady; one son, Charles K. Brady.

SCOR.—Thomas P. Scor, a popular young man of St. Patrick's parish, died this morning at St. John's hospital. He leaves to mourn his loss his mother, Mrs. Ellen Scor; one son, Charles K. Brady; one son, Charles K. Brady; one son, Charles K. Brady.

LESSARD.—Joseph, aged 8 months and 15 days, died last night at the home of the parents, Philomene and Louis Lessard, 22 Marshall street. The funeral took place this afternoon at 3:30 o'clock, service being conducted at Notre Dame de Lourdes church. Burial was in St. Joseph's cemetery under the direction of Undertakers Joseph Albert & Son.

FUNERAL NOTICES

MCGOWAN.—The funeral of Mrs. Elizabeth McGowan will take place Thursday morning at 9 o'clock, from the late home, 801 Central street. A solemn high mass at St. Peter's church at 9 o'clock. Burial in St. Andrew's cemetery, Lowell, Mass.

SCOR.—The funeral of Thomas P. Scor will take place Thursday morning at 9 o'clock from his late home, 18 Woodbury street. High mass of requiem will be celebrated at St. Patrick's church at 9 o'clock. Burial will take place in St. Patrick's cemetery. Funeral arrangements in charge of Undertakers Higgins Bros.

SCHOFIELD.—The funeral of Rev. Edmund Schofield will take place tomorrow (Wednesday) morning, at 9 o'clock, from the late home, 22 Marshall street. A solemn high mass at St. John's church at 9 o'clock. Burial in St. John's cemetery. Funeral arrangements in charge of Undertakers Joseph Albert & Son.

SANBORN.—The funeral services of Fred W. Sanborn were held at his late home, 201 Forest street, yesterday afternoon at 2 o'clock. The services were conducted by Rev. Mr. Tingley, pastor of the Hillside church of Dracut, assisted by Rev. Mr. Tingley, pastor of the Hillside church of Dracut, assisted by Rev. Mr. Tingley, pastor of the Hillside church of Dracut.

WELCH.—The funeral of Mary C. Welch was held yesterday afternoon from the Old Ladies' Home in Fletcher street. The services were conducted by Rev. Mr. Tingley, pastor of the Hillside church of Dracut, assisted by Rev. Mr. Tingley, pastor of the Hillside church of Dracut.

WALTER E. GUYETTE, Auctioneer

Office, 53 Central St., Lowell, Mass. Telephone 2415

Next Saturday, Sept. 16, at 3 O'Clock P. M.

ABSOLUTE SALE AT PUBLIC AUCTION OF TWO 1 1/2-STORY COTTAGE HOUSES, HEN HOUSES AND ABOUT 12500 SQUARE FEET OF LAND AT NOS. 228 AND 232 FIRST STREET

I have instructed the auctioneer to offer at absolute public auction, this desirable home and investment parcel of real estate, located directly on the Lawrence and Haverhill electric car line. The properties consist of two 1 1/2-story cottages of 5 rooms, with city water and electric lights, each in very fair condition, being shingled only three years ago. No. 228 has a splendid cellar kitchen, and has double piazzas. The lot has a frontage on First street of 100 feet and a total area of 12,500 square feet, with a variety of fruit trees on the lot, also hen houses that will accommodate 150 hens. The location is attractive, the properties being within 12 minutes' walk of Merrimack Square, and very handy to many of Lowell's largest manufacturing industries.

The houses set on an elevation that gives a commanding view of the winding Merrimack river, as also a beautiful view of the entire city, also its elevation serves to protect from the noise and dust that one usually gets being right on a car line. No. 232 is rented to a very good tenant who pays \$120 per year, the owner occupying No. 228. Here is an extremely attractive sale, a chance to buy two houses in the same lot, where you can live in one and rent the other and the rent received will pay the running expenses of both, giving you your rent free. Come and look this property over. A fine opportunity for any one with a small amount of money to own a cottage by himself and have another to collect from. A very large part of the purchase price can remain on mortgage at 5 per cent.

TERMS—\$200 must be paid to the auctioneer just as soon as the property is struck off.

HERBERT COWDELL
